

VIVANCO

INTELLIGENT SOLUTIONS

Consumer Electronics 2014

LOOKING FOR NEW PROFIT GENERATING PRODUCT?

Vivanco continues to maximise the accessory potential for all its trade partners - with more class leading accessory ranges to compliment the latest hardware. Consumer-orientated packaging creates readily shoppable displays within personalised concepts both in-store and on-line, to enhance the consumer experience.

Our increasing e-marketing activity takes our consumer focus & category management to completely new levels. Our European new product development/marketing department is backed by a significant German based QC team - which gives our customers the confidence they need. On top of this, our new Far East structure has given us much greater sourcing & manufacturing access to new technologies.

All of this, combined with our flexibility and customer focus makes Vivanco the right partner for technology accessory solutions.

- Max. 400 x 400 VESA
- Max. 25 kg
- Swivel angle +/- 90°
- Tilt angle: +3°/- 15°
- Horizontal level correction +/- 3°
- Wall distance 70 - 280 mm
- Cable management

Wall bracket for large sized flat screen TV's,
up to 140 cm / 55", max. 45 kg black

Tilt & swing TV wall bracket
for LCD and LED screens up to 140 cm / 55", 45 kg max.

- 40" – 55" / 101 – 140 cm
- Max. 600 x 400 VESA
- Max. 45 kg
- Swivel angle +/- 90°
- Tilt angle: +3°/- 15°
- Horizontal level correction +/- 3°
- Wall distance 70 - 320 mm
- Cable management

Wall bracket for extra large sized flat screen TV's,
up to 203cm / 80", max. 45 kg black

Tilt & swing TV wall bracket
for screens up to 203cm / 80", 45 kg max.

- 40" – 80" / 101 – 203cm
- Max. 800 x 400 VESA
- Max. 45 kg
- Swivel angle +/- 90°
- Tilt angle: +3°/- 15°
- Horizontal level correction +/- 3°

Cable cover D-Line

**16/8 D-profil white 4x 1,0m lenght
(EDP 26454)**

**30/15 D-profil white 2x 1,0m lenght
(EDP 26455)**

**50/25 D-profil 1x 1,0m lenght
(EDP 26456/26457)**

- Easy to handle and fit
- Self-adhesive backing
- High-quality material/easy to trim
- No more opening of walls
- Allows routing of cables at a later time
- Easy to open, engages easily and precisely when closed
- Decorativ design
- Rounded D-profile/no accumulation of dust
- Can be painted
- No bending and warping
- UV-proof
- Protected against water jets and dust (no ingresson of dust at a vacuum of 20mmbar) acc. to IP65 standard
- Can be installed in bathroom, kitchen or outdoors
- Temperature range -33°C to +60°C -> Flameproof
- Modular system/adapters available
- Bends and connectors available
- Can be easily routed, even in corners
- Routing of T-connectors

16/8 or 30/15 Set of connectors white

T Series - Curved structure TV rack black

The beautiful long and low design of the T Series is perfectly suited to the larger screens available on the market today. The stunning high gloss piano black finish is applied to the single piece, curved wood structure to make the T Series a design driven statement piece that stands out among other stands available today.

Capable of supporting a wide range of screens and with ample space for AV equipment, the T Series combines the functionality of a traditional AV rack while fitting beautifully into any living environment.

- High quality manufacturing
- Curved structure with high gloss finish
- W 120 cm x H 38,4 cm x D 38,5 cm

TV Furniture

R Series - Stylish TV rack black

This contemporary twist on the classic, open rack design offers a soft, stylish approach to AV support furniture. The stunning gloss black glass is paired with matt black legs to give an exceptional finish that will complement the latest designs for Plasma and LCD Televisions. The all curved design provides a subtlety that is often missing from traditional stands, and with the ability to hold up to 6 pieces of equipment, with integrated cable management and a high-strength frame, the R Series has outstanding functionality.

- High quality manufacturing
- Integrated cable management
- High-strength frame
- Holds up to 6 pieces of equipment
- W 80 cm x H 50,4 cm x D 45 cm

V Series - TV rack in elegant design black

The sleek, elegant design of the V Series really makes it stand out in a crowd. Its unique soft V shape offers an alluring option for anyone wanting a practical AV stand with a stylish look that would suit most modern homes. The concealed fixings provide the V Series with a smooth, classy finish that can really create a focal point in the room. With a chunky base for stability, additional stability supports included and 10mm tempered glass, this piece provides a strong, safe approach to AV storage while still maintaining an outstanding, eye-catching design.

- High quality manufacturing
- Concealed fixings provide a smooth, classy finish
- Additional stability supports included and 10mm tempered glass
- W 100 cm x H 46,4 cm x D 39 cm

Universal 8in1 remote control

- Controls almost all well-known brands devices
- TV, set top boxes, digital and analog satellite receivers, DTT, DVD players and recorders, video recorders, CD player, Hifi systems, etc.
- Controls all frequently used functions also video text, fasttext, EPG, etc.
- Controls up to 8 different devices
- Extra menu keys
- Code search function for finding not code listed devices
- Punch through: controls sound also on VCR level
- Compatible with Pay TV
- Batteries or high-performance rechargeable batteries: 2x AAA not supplied

Universal 8in1 remote control

- Controls all well-known brands devices
- TV, set top boxes, digital and analog satellite receivers, DTT, DVD players and recorders, video recorders, CD player, Hifi systems, etc.
- Controls all frequently used functions also video text, fasttext, EPG, etc.
- Controls up to 8 different devices
- Trendy silver colour
- Extra menu keys
- Code search function for finding not code listed devices
- Punch through: controls sound also on VCR level
- Batteries or high-performance rechargeable batteries: 2x AAA not supplied

2in1 TV/DVB universal remote control silver

- TV and DVB (DTT, DVB-S (sat), DVB-C (cable) or analog (sat))
- Extra large buttons for easy operation
- Code search for finding devices not included in the code list
- Controls most used functions
- Adjustable punch-through sound control (TV sound can also be controlled at DVB level without changing the equipment level)
- Batteries (not included): 2x AA

2in1 TV/DVB universal remote control

- TV and DVB (DTT, DVB-S (sat), DVB-C (cable) or analog (sat))
- Replaces defective or lost original remote control devices.
- Compact, sits neatly in the hand
- Code search for finding devices not included in the code list
- Controls a range of functions, including video text and menus, on almost all equipment brands
- Adjustable punch-through sound control (TV sound can also be controlled at DVB level without changing the equipment level)
- Batteries (not included): 2x AAA cells or Vivanco Eco.Bat. rechargeable batteries

Innovative concept for DVB-T antennas

Vivanco presents a new innovative concept for DVB-T antennas. Apart from performance and design, the main focus is on the actual real-life usage.

The new guidance system facilitates the search for the antenna which best suits a consumer's requirements, allowing anybody to find the product most suitable for them easily and quickly.

The answer to the question: which is the right antenna?

Good / Better / Best

Vivanco antennas are categorised in the three ranges Good, Better, and Best. This categorisation also refers to the reception quality. The farther away from the transmission tower, the better the quality of the antenna should be.

Best

- Very high reception quality, top amplification, premium accessories kit
- Optimal for operation in areas with poor reception

Better

- High reception quality, high amplification, basic accessories kit
- For operation in areas with average to good reception

Good

- Good reception quality with good amplification characteristics
- Optimal for areas with good reception

The segments

The product range is divided into four basic application ranges: Indoor, PC, Car/Truck and Outdoor. Vivanco's DVB-T antennas were specially optimised for these areas of application.

Indoor

- For indoor use such as in rooms or flats

PC

- Specially optimised for use with PCs and for mobile application with notebooks

Car/Truck

- For use on a 12 V onboard network of cars, trucks or caravans

Outdoor

- For outdoor use, for example for installation on house walls or on caravans

The segments

	Indoor	Indoor	PC	Car/Truck	Outdoor
Best	Design				
Better	TVA 402	TVA 302	TVA 202	TVA 101	TVA 502
Good	TVA 401	TVA 301/TVA 3005	TVA 201	TVA 100	TVA 501
	TVA 400	TVA 300	TVA 200		TVA 500

Design down to the finest details!

The Vivanco Design line combines aesthetics and function in extraordinary products. The subtle understatement, the clear lines and the above-average performance make these products something special.

Indoor**Full HD indoor antenna**

- Full HD TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 48dB amplification technology for an optimal amplification of terrestrial TV signals
- Auto-gain control - automatic setting of the best amplification factor
- Active low-noise technology for extremely clear reception
- Multi-direction 360° system increases reception capacities
- Highest level of flexibility: positioning or wall assembly possible
- Eco-Switch: OFF instead of only STANDBY, save power by switch-on and switch-off
- Current supply by power supply, USB connection or DVB-T receiver
- UHF, VHF

Full HD indoor antenna

- Full HD TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 46dB amplification technology for an optimal amplification of terrestrial TV signals
- Auto-gain control - automatic setting of the best amplification factor
- Active low-noise technology for extremely clear reception
- For optimal horizontal reception
- Highest level of flexibility: positioning or wall assembly possible
- Current supply by power supply or DVB-T receiver
- Ultra-Flat Design
- Outstanding antenna suits well to current Flat-TV modelss
- UHF, VHF

Full HD indoor antenna

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB-radio and FM-radio
- The most innovating 42 dB amplification technology for an optimal amplification of terrestrial TV signals
- Variable amplification performance for a perfect reception setting
- Active low-noise technology for extremely clear reception
- Additional telescopic antennas for ideal VHF and UKW reception
- For optimal horizontal and vertical reception
- Eco-Switch: OFF instead of only STANDBY, save power by switch-on and switch-off
- Current supply by power supply, USB connection or DVB-T receive

A high demand on daily TV viewing

The segment offers optimum solutions for DVB-T receivers and for TV sets with integrated DVB-T module. The antennas also offer FM radio reception. Their distinctive features are flexibility and functionality.

Indoor

Indoor antenna

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB-radio and FM-radio
- The most innovating 46dB amplification technology for an optimal amplification of terrestrial TV signals
- Variable amplification performance for a perfect reception setting
- Active low-noise technology for extremely clear reception
- 2 additional telescopic antennas for ideal VHF and UKW reception
- Eco-Switch: OFF instead of only STANDBY, save power by switch-on and switch-off
- Current supply by power supply or DVB-T receiver

Indoor antenna

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB-radio and FM-radio
- The most innovating 40dB amplification technology for an optimal amplification of terrestrial TV signals
- Variable amplification performance for a perfect reception setting
- 2 additional telescopic antennas for ideal VHF and UKW reception
- Eco-Switch: OFF instead of only STANDBY, save power by switch-on and switch-off
- Current supply by integrated power supply unit

Indoor antenna, passive

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB-radio and FM-radio
- Passive increase of terrestrial TV signals
- 2 additional telescopic antennas for ideal VHF and UKW reception

DVB-T indoor antenna with amplifier and power adapter, 22 dB

- Aerial for analogue and digital TV reception, DVB-T, DVB-T2, DAB Radio and FM Radio
- Also for Notebook Computers with DTT receivers
- UHF and VHF
- Plug & Play system
- Multi directional antenna, no adjustment needed
- Gain: VHF / UHF: 22 dB
- Frequency range: VHF 174 – 230 MHz; UHF: 470 – 862 MHz
- To be powered by DTT receiver (5V=, 40 mA) via aerial cable or optional power adapter 230V / 50 Hz (included)
- Dimensions: 37.0 x 7.8 x 5.8 cm
- Coax cable: 1.45 m with IEC plug

Digital TV on your computer!

You can watch high-quality DVB-T television, not only on your stationary home PC but also on your notebook PC during mobile usage. Due to their extremely compact design and optimisation for mobile reception, the PC antennas are your perfect companion when you are travelling. When connected to your DVB-T stick or the TV card, the antennas provide an excellent television signal.

PC

Mobile PC indoor antenna

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 36dB amplification technology for an optimal amplification of terrestrial TV signals
- Active low-noise technology for extremely clear reception
- For optimal horizontal and vertical reception
- Ultra slim design: extremely compact and flat design for different positioning options
- Perfectly suitable for outdoor use and equipped with DVB-T reception component on the PC/notebook
- Current supply by power supply, USB connection or DVB-T receiver

Mobile PC indoor antenna

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 35dB amplification technology for an optimal amplification of terrestrial TV signals
- Active low-noise technology for extremely clear reception
- For optimal horizontal and vertical reception
- Flexi-mount: extremely compact and flexible design for different positioning options
- Perfectly suitable for outdoor use and equipped with DVB-T reception component on the PC/notebook
- Current supply by power supply, USB connection or DVB-T receiver

Mobile PC indoor antenna, passive

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- Passive increase of terrestrial TV signals
- Omnidirectional: no adjustment required
- Perfectly suitable for outdoor use and equipped with DVB-T reception component on the PC/notebook

Television for people who are on the go

No matter whether in the car, the mobile home or the truck, the CAR/TRUCK antennas ensure optimum reception even there. The active antennas have a 12 V power input for the car onboard network and offer a much higher reception quality than conventional passive standard antennas.

Car/Truck

Car indoor antenna

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 35dB amplification technology for an optimal amplification of terrestrial TV signals
- Active low-noise technology for extremely clear reception
- For optimal horizontal and vertical reception
- Flexi-mount: extremely compact and flexible design for different positioning options
- Perfectly suitable for applications in the car/truck (12V) for devices with DVB-T reception component
- Current supply by 12V car network or DVB-T receiver

Car indoor antenna

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 18dB amplification technology for an optimal amplification of terrestrial TV signals
- Omnidirectional: no adjustment required
- Perfectly suitable for applications in the car/truck (12V) for devices with DVB-T reception component
- Current supply by 12V car network or DVB-T receiver

Reception problems?

Outdoor antennas offer the perfect solution when reception in your apartment is very poor or even impossible. Purposeful and weatherproof, they receive television signals you cannot receive inside the house or apartment. This lets you easily blank out structural obstacles.

Outdoor

Outdoor roof antenna, passiv

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- Passive increase of 28dB for terrestrial TV signals
- Wideband UHF reception
- Long-distance reception: extraordinary reception by pinpoint adjustment
- Easy installation: Very easy assembly with device for mast assembly
- Waterproof dipole box with F plug
- With triple cross beam and balun for signal optimisation

Outdoor antenna

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 48dB amplification technology for an optimal amplification of terrestrial TV signals
- Auto-gain control: automatic setting of the best amplification factor
- Active low-noise technology for extremely clear reception
- Multi-direction 360° system increases reception capacities
- Highest level of flexibility: positioning, wall or mast assembly possible
- Perfectly suitable for external applications and for caravans and mobile homes
- Current supply by power supply or DVB-T receiver
- Suitable for all weather conditions
- Included cable for antenna of 8.5m

Outdoor antenna

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 42dB amplification technology for an optimal amplification of terrestrial TV signals
- Active low-noise technology for extremely clear reception
- Multi-direction 360° system increases reception capacities
- Highest level of flexibility: positioning, laying, wall and mast assembly possible
- Perfectly suitable for external applications and for caravans and mobile homes
- Current supply by power supply or DVB-T receiver
- Suitable for all weather conditions

Manual 4 way HD audio visual switching unit, 4 -> 1

- Manual 4to1 HDMI switcher for high-resolution television
- Simple one source connections to HD/BD DVD players and recorders, Sky HD, DVB, SetTopBox, Playstation 3 and more
- HDMI TV connection
- HDMI 1.3 compliant
- HDCP copy protection
- Sockets are gold plated for superior signal transfer
- Inputs: 4x HDMI
- Output: 1x HDMI
- Single link range: 480i/480p/720i/720p/1080i/1080p
- HDMI 1.3 compliant, HDCP copy protection
- Bandwidth: up to 10.2Gbps/400MHz

Manual 2 way HD audio visual switching unit, 2 -> 1

- Manual 2to1 HDMI switcher for high-resolution television
- Simple one source connections to HD/BD DVD players and recorders, Sky HD, DVB, SetTopBox, Playstation 3 and more
- HDMI TV connection
- HDMI 1.3 compliant
- HDCP copy protection
- Inputs: 2x HDMI
- Output: 1x HDMI
- Single link range: 480i/480p/720i/720p/1080i/1080p
- HDMI 1.3 compliant, HDCP copy protection
- Bandwidth: up to 10.2Gbps/400MHz

AV connector 3, 3 channel RGB AV switch box with copy facility, 3 -> 1 (2)

- For connection of up to 3 AV devices (program sources) to a single TV set
- Easy connection of DVD players and recorders, SAT receivers, DVB-T receivers, video recorders, DVD recorders, camcorders, digital photo cameras etc.
- Scart TV socket and TV phono sockets
- Additional AV phono outputs from TV
- Additional audio outputs to HiFi or home cinema systems
- Recorder copy function (composite video, S-video)
- Manual input selection
- RGB, S-Video (Y/C), composite video at all sockets

Phono pre-amplifier

- For connection of record players; adapter for all equipment lacking a phono input
- Converts line, Aux, Tape, MC, CD, tuner inputs to phono inputs for record players
- Phono to high level signal converter
- Also for multimedia PCs
- The ideal solution to connect analogue record players to a PC
- Mains adaptor included

Microphone pre-amplifier

- Expands equipment such as mixers by an additional microphone input
- For devices without or insufficient microphone inputs
- Impedance control
- For all receivers, amplifiers, mixers or sound cards at the PC
- Mains adaptor included

Adapter cassettes

Car adapter cassette

- For connecting portable CD, DAT, minidisc, DCC as well as MP3 playback devices to car radios with tape decks
- 3.5mm mono plug, stereo

A STRONG BRAND

The aircoustic brand symbolises an entirely new, customer-oriented approach to sell headphones. The “Application-matched segmentation” concept directly addresses the requirements of the final customers, thus allowing for a fast and optimal decision to buy.

Tried and tested features:

Segmentation by application

For this reason, we segment the aircoustic product line by application rather than by type or design. This lets the customer find the right headphones for his intended application very quickly.

Decision guidance and fast orientation

The concept for the aircoustic product line indicates the relevant applications and so actively supports the customer in his decision to buy. The colour coding system helps with orientation.

Comprehensive solution

aircoustic is the comprehensive solution for headphones. We ensure a uniform and attractive shelf presentation minimising the expenses for customer counselling while continuously updating and gearing the product range towards the latest trends.

The 4 segments:

aircoustic

Bluetooth stereo headphones

Bluetooth stereo headphones with telephone function

- First class sound quality from compact high performance 40mm Neodym Drivers
- Wireless music and comfortable additional phone use
- Supports mobile devices with Bluetooth 3.0 (Smartphones, iPhone, iPad, iPod, Tablet, PC)
- Easy music & phone control: pick-up / hang-up / play / pause / <>
- Easy stowage during transport due to foldable design
- Integrated lithium battery, re-chargeable by USB cable
- Compatibility: Bluetooth 3.0 + lithium rechargeable battery 3.7V 420mAh
- Connectivity : Recharging cable USB / DC 5V
- Impedance (Ohm) : 32
- Built-in microphone: 40dB
- Frequency response: 20Hz to 20kHz
- Magnet type : NdFeB 40mm

Stereo headphones

Retro design stereo headphones

In terms of design, the SR 180 scores with its retro looks, but also convinces with its stereo sound rich of details. The lightweight is extremely comfortable to wear thanks to the soft, infinitely adjustable head band.

- Frequency: 20 – 23.000kHz
- Design: closed
- Sensitivity: 100dB
- Impedance: 32ohm
- Head band: infinitely variable
- Cord length: 1.8m
- Cable arrangement: single-sided
- Plug: 3.5mm golden

SR 180

EDP-No. 28880

ctn qty. 5

TV headphones

DJ style headphones

Thanks to the swivel ear caps and convenient designed ear cushions the wearing comfort is extraordinary. The manufacture is rugged and high-grade and will be underlined by an elaborated surface structure (rubber coating). The closed construction provides a strong bass performance completed by clear highs and smooth mids. The headphones can be folded compactly.

- Frequency Range: 18 – 23.000Hz
- Impedance: 32ohm
- Sensitivity: 109dB
- Cable Length: 1.8m
- Plug: 3.5mm golden
- Headband: adjustable
- Weight: 140g (w/o cable)

SR 580 HD EDP-No. 31440

ctn qty. 5 / black

TV headphones

TV stereo headphones

Compact and comfortable – the TV 180 convinces with its optimum wearing comfort and a sound optimised for TV and movies.

- Padded head band and ear cushions
- Adjustable headband
- Long cable with integrated volume controller

MP3 headphones

Metal jacket design - ultralight design in earphones

The housings are made of high grade aluminium and are both lightweight and solid at the same time. As well as the Pitch black version, the iSR110 is also available in three on trend colours as well: Mocha brown, Sweet violet and Burnt orange. The matt finished paint, the high grade materials and the perfect manufacture provide a true quality appearance. And the sound inspires as well: The complete acoustic spectrum is reproduced in a totally clear and balanced way. Prolonged listening with the iSR110 gives incredible pleasure. The crisp bass, clear highs and clean midrange meet all needs. Due to the lightweight housing the wearing comfort is high and the silicone ear pads in three different sizes allow the fit to be optimised individually.

- High quality aluminium housing
- Excellent sound quality
- 4 trendy colours
- Frequency: 18Hz – 22.000Hz
- Sensitivity: 99dB
- Impedance: 16Ohm
- Cord length: 1.2m
- Plug: brown violet orange 3.5mm golden

Camcorder and DSLR

DSLR camera case

- Soft padded pouch construction with twin zip closure
- Padded back panel
- Leatherette bottom
- Adjustable shoulder strap
- Opening pleat
- Internal pocket for accessories and memory cards
- Removable lens protection pad with velcro

Available in two sizes:

Size I – Inner dimensions: 14 x 14.5 x 9.5cm

Size II – Inner dimensions: 18 x 19 x 10.5cm

Camcorder case

- Soft padded pouch front-construction with main zip closure and EVA back
- 20mm Herringbone webbing belt loop
- Removable shoulder strap
- Internal pocket for accessories and memory cards
- Inner dimension: 8 x 15 x 6cm

Universal DSLR Camera Bag

- Top-loading opening for quick and easy access to the camera
- Padded inner compartment with adjustable panel
- Extra solid protection for objective lens - removable
- Front pocket
- 2-way zipper
- Padded carrying handle
- Solid belt loop
- Shoulder strap, removable and adjustable (60-120cm)
- Material: 600 D Polyester
- Inner dimensions: (W/H/D) 10-16cm x 18.5cm x 10-11 cm

Universal DSLR Camera & camcorder bag

- Anti-scratch inner compartment
- Outer Material: 600D Polyester
- Padded inner compartment with adjustable panel
- Two external side pockets
- Front pocket
- Back pocket with velcro fastener
- Padded shoulder strap, removable and adjustable (70 – 134cm)
- Camera bag size: (W/H/D) 24 cm x 21 cm x 14.5 cm

Basic Black camcorder/camera case

Robust case for all occasions. Tasteful styling and high-quality workmanship are the trademark features of this line. Robust material and stable upholstery provide the best possible protection for the camera and accessories and make the basic black models an indispensable companion in all situations.

- Material: nylon
- Water-resistant top material in black with blue piping
- The main compartment is closed with a practical double zipper
- The cover net compartment, front compartment with organisational partitioning, front and side net pockets provide space for many accessories
- High-grade upholstery
- Light-coloured flannel inner lining to help find accessories inside the case
- Adjustable interior partitioning
- Removable shoulder strap and belt loop for different carrying options
- Cleanable bottom

Available in four sizes:

Size I – Inner dimension main compartment approx 10 x 14 x 8 cm

Size II – Inner dimension main compartment approx 13 x 12 x 6 cm

Size III – Inner dimension main compartment approx 17 x 12 x 9 cm

Size IV – DSLR*-Tasche „Colt“, Inner dimension main compartment approx 17 x 19 x 12,5 cm

The customer is the focus

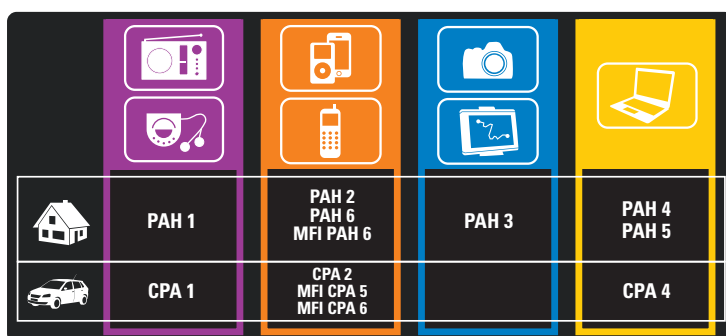

Power units are everyday items, but hardly anyone knows the technical specifications of these commonplace products.

Anyone who wants to replace a lost or defective power unit is faced with a difficult choice.

The dealers' shelves are full of countless models with a multitude of different plugs.

The new Vivanco power unit range, therefore follows a completely new logic, which starts with the APPLICATION of the product.

With the aid of this simple classification, it is easy to find the correct power unit on the shelf:

The range is divided into 4 DEVICE CLASSES:

- Small electronic devices: portable audio devices such as radios, discman/walkman, active loudspeakers as well as pocket calculators, Babyphones, kitchen scales
- iPad, iPhone & iPod / smartphones / mobil phones / MP3 player
- Cameras / portable navigation devices
- Portable computers: laptops, netbooks

In addition, the power units are classified according to WHERE THEY ARE USED:

at home

in the car

For electronic appliances

AC/DC power adapter for electronic appliances

- Compact and light weighing
- For worldwide use
- GS, CE
- Input: 100–240V~ / 60/50Hz / 0.25A max.
- Max. output power/current: 12W / 1000mA max.
- Stand-by power: < 0.3W*
- Efficiency: max. 75%*
- Output voltages: 3.0 / 4.5 / 5.0 / 6.0 / 7.5 / 9.0 / 12V ; max. 12VA
- Output plugs: 2.5mm / 3.5mm / 5.0 x 2.1mm / 5.5 x 2.5mm / 3.5 x 1.35mm / 4.0 x 1.7mm / 5.5 x 1.5mm / 2.35 x 0.75mm

For smartphones, mobile phones, MP3

Car power adapter for Apple iPad®, iPhone®, iPod® and other USB devices

- Charges all USB chargeable appliances
- E Mark: CE (E4)
- Input: 12–13.8V
- Output: 5V / 2100mA (voltage according to USB standard)
- Max. output power/current: 10.5W
- Output plugs: USB type A at the car power supply
- Cable length: 1m
- Cable type: USB type A → Apple dock connector
- Surge protection

Power adapter for Apple iPhone®, iPod® and other USB devices

- Charges all USB chargeable appliances
- GS, CE
- Input: 100–240V~, 60/50Hz, 130mA max.
- Output: 5V / 1000mA max. (voltage according to USB standard)
- Max. output power/current: 5W
- Output plugs: USB type A at the power supply
- Cable length: 1m
- Cable type: USB type A → Apple dock connector
- Surge protection
- Stand-by power: < 0.3W

Car power adapter for Apple iPhone®, iPod® and other USB devices

- Charges all USB chargeable appliances
- E Mark: CE (E4)
- Input: 12–13.8V, 500mA max.
- Output: 5V / 1000mA max. (voltage according to USB standard)
- Max. output power/current: 5W
- Output plugs: USB type A at the car power supply
- Cable length: 1m
- Cable type: USB type A → Apple dock connector
- Surge protection

Charging adapter for div. USB and micro USB devices, smartphones and MP3-player

- Micro USB cable
- Compact design
- Charges all USB chargeable appliances
- GS, CE
- Input: 100–240V~, 60/50Hz
- Output: 5V / 1000mA (voltage according to USB standard)
- Max. output power/current: 5W
- Output plugs: USB type A at the power supply
- Cable length: 1m
- Cable type: USB type A → USB type micro B
- Surge protection
- Stand-by power: < 0.3W

Plug-in Chargers

Standard Plug-in Battery Charger with USB Outlet

Standard Plug-in Battery Charger, 150 mA, with USB Outlet, for 2 or 4 AA / AAA Ni-MH/ Ni-Cd Batteries(without battery pack)

- USB outlet with overload protection
- Gentle battery charge
- For 2 or 4 pcs. AA / AAA Ni-Cd / Ni-MH batteries
- It incorporates an USB outlet to charge electronics devices in the meantime
- Input Voltage: 100–240V~, 60/50Hz (euro plug) Output: 0.72VA max.
- Charge Current: 2x (2.8V=, 150mA) AA / AAA USB output: 5V / 1000mA USB output: 5V / 1000mA (USB charging only) 5V / 852mA (USB & 2 pcs. batteries charging) 5V / 700mA (USB & 4 pcs. batteries charging)
- Batteries Charging Time Table:
Battery Type, battery capacity, charge time AAA, 700mAh, 6.5hrs 850mAh, 7.9hrs 900mAh, 8.4hrs AA, 1800mAh, 16.8hrs 2000mAh, 18.7hrs 2200mAh, 20.5hrs 2400mAh, 22.4hrs

NiMH battery pack, 4x micro 1.2V / 850mAh

- Nickel Metal hydrid
- 1.2V
- 850mAh
- Type: AAA
- Content: 4pcs.

NiMH battery pack, 4x mignon 1.2V / 2500mAh

- Nickel Metal hydrid
- 1.2V
- 2500mAh
- Type: AA
- Content: 4pcs.

NiMH battery, rechargeable, AAA-Type, 700mAh, 2pcs.

Ideally in use with digital camera, flashlight, walkie-talkie, clocks.

- NiMH 2x Micro 1.2V / 700mAh
- Size: 45 x 10 x 10mm
- Weight: 12g / battery
- Type: AAA
- Content: 2pcs.

Box for 4 pcs. AA and/or AAA batteries transparent

Best to protect or to carry replacement batteries and rechargeable batteries. Can limit the risk of dangerous short circuits, which may happen if batteries are carried unprotected. Stops wasting of time while looking for loose batteries in (photo-) bag or backpack.

- Universal for 4pcs. AA- or AAA round cells
- Transparent plastic housing
- Batteries are not included

Professional line

6way power socket with foot switch

- With 6 schuko sockets
- 2 schuko sockets with permanent power supply. Ideally for devices which needs to be powered all the time (e.g. WLAN Router, Sat Receiver, Phone)
- 4 Schuko sockets switchable
- With children security
- 1.40m power cord
- 1.00m cable length on the foot switch
- With function LED
- Max. 3.680W, 16A, 230V~ / 50Hz

6way power socket with USB connection

- With 6 schuko - and 2 USB sockets (iPhone/iPod/iPad)
- USB port with 5V=, 2.1A max. ; optional:
- 2 devices with 1A max.
- 1 device with 2.1A max.
- With children security
- With function LED
- Max. 3.680W, 16A, 230V~ / 50Hz

Four socket extension lead with switch and surge protection

- 4x Schuko
- Surge protection up to 19.500A
- Children security
- 1.40m lead, 1.5mm² core thickness
- Incl. wall mount holder
- 16A / 3.500W / 50Hz

Six socket extension lead with switch and surge protection

- 6x Schuko
- Surge protection up to 19.500A
- Children security
- 1.40m lead, 1.5mm² core thickness
- Incl. wall mount holder
- 16A / 3.500W / 50Hz

Four socket extension lead ALU with switch and surge protection

- 4x Schuko
- Surge protection up to 19.500A
- Overload protection
- Children security
- 2m lead, 1.5mm² core thickness
- Incl. wall mount holder

Travel plugs

Travel plug set

Suitable for:

- Southern Europe
- America
- Overseas
- UK

Travel plug set, Schuko

- Incl. 7 adapters for more than 150 countries throughout the world
- Children security
- Including transport bag
- Suitable for Schuko and Euro plugs

The travel plug is not a voltage and frequency converter!

Multi travel adaptor

The compact TRAVEL adaptor is the perfect companion for travelling! Thanks to its space saving design it can be stored in any luggage and can be used for adapting many common plug norms. Different inputs and switchable outputs offer highest flexibility choosing the correct adaptor!

- UK, Ireland, Hongkong and other countries with 3-pin UK plug
- Australia, New Zealand and other countries with 2-pin "Aussie" plug
- USA, Canada, Mexico and other countries with 2-pin US plug
- Many European countries with 2-pin Euro plug
- 110V input: max. 275W power consumption
- 230V input: max. 575W power consumption
- Only for indoor use (IP20)
- 2.5A fuse, exchangeable

This adaptor is built according to applicable European laws and can therefore only be used for unearthed devices (protection class II). It is NOT ALLOWED that adaptors like this can be used with plugs that have a ground pin (e.g. Schuko, Swiss or Italian 3-pin plugs). Note: This product does not transform voltages or frequencies. (Input voltage = output voltage).

Smoke/CO detector & accessories

Smoke Detector, VdS certified

- VdS approved and certified
- Tested according to smoke detector standard EN14604
- CE certified
- Incl. 9V ALKALINE Long Life battery
- Battery lifetime: 5 years
- With function LED and audible signal
- With self test function
- Automatic function control
- With alarm function when the battery power isn't high enough
- Easy and wireless installation
- Incl. instruction manual

Photoelektrischer Rauchmelder, 4er Set

- Tested according to smoke detector standard EN14604
- Incl. 9V battery - lifetime: 1 year
- Optische Funktionsanzeige und akustisches Signal (85 db)
- With self test function
- Automatic function control
- With alarm function when the battery power isn't high enough
- Incl. instruction manual

Carbon Monoxide (CO) Alarm

The installation of the CO Alarm is recommended by chimney sweeper. Potential cause of risk are chimney, gas stove, gas heating system.

- Oil-, wood burning- and cockle stove
- To protect against toxic carbon monoxide
- With function LED and 85dB alarm
- Visuell Alarm (red flashing LED)
- Low battery alarm
- Regularly self test function
- Continuous measurement of carbon monoxide concentration in the air
- Content: CO-Alarm, mounting material, manual, 9V battery
- Dimensions: 107mm \varnothing , Height 44mm
- Battery Type: 9V Alkaline
- Certification: CE / EN50291
- Operation temperature: +5 to +40°C
- Alarm level: >85dB
- Sensibility of the CO Sensor:
 - 50 ppm within 60 - 90 min
 - 100 ppm within 10 - 40 min
 - 300 ppm within 3 min

Magnetic holder for smoke detector

- Quick and clean assembling
- Fits for almost all smoke detectors ($\varnothing > 8\text{cm}$)
- Also suitable for CO alarm, heat alarm and other, similar devices
- 3M glue tape for a save and permanent assembling
- Incl. instruction manual

LED Nightlight with twilight sensor

The integrated twilight sensor will make sure that the nightlight will only shine when it is needed. The twilight sensor will only switch on the nightlight if the light intensity is < 10 lux. As soon as the light intensity is higher then this level the nightlight will be switched off. By using energy saving LED's the nightlight needs only 0,60W power in use.

- Switching threshold: 10 lux
- Plug type: euro plug
- Bulb type: LED (3pcs)
- Colour of the LED: white
- Power consumption: < 0,60W
- Size: 80 x 57 x 28mm (without plug) 80 x 57 x 65mm (incl. plug)

LED Nightlight with twilight sensor and schuko socket

The integrated twilight sensor will make sure that the nightlight will only shine when it is needed. The twilight sensor will only switch on the nightlight if the light intensity is < 10 lux. As soon as the light intensity is higher then this level the nightlight will be switched off. By using energy saving LED's the nightlight needs only 0,60W power in use. One additional benefit of the nightlight is the integrated schuko socket with shutter. By using the nightlight there can be always one additional device connected to the wall outlet socket.

- Switching threshold: 10 lux
- Plug type: schuko plug
- Socket type: schuko with shutter
- Colour of the housing: white
- Bulb type: LED (3pcs)
- Colour of the LED: white / blue / green
- Power consumption: < 0,60W
- Size: 80 x 80 x 35mm (without plug) 80 x 80 x 66mm (incl. plug)

LED Nightlight with twilight sensor and schuko socket

The integrated twilight sensor and the integrated power on/auto/off switch will make sure that the nightlight will only shine when it is needed. The twilight sensor will only switch on the nightlight if the light intensity is < 10 lux. As soon as the light intensity is higher then this level the nightlight will be switched off. By using energy saving LED's the nightlight needs only 0,60W power in use. One additional benefit of the nightlight is the integrated schuko socket with shutter. By using the nightlight there can be always one additional device connected to the wall outlet socket.

- 3 operation modes: ON / AUTO / OFF
- ON: The nightlight is permanently switched on
- AUTO: The twilight automatic enables the nightlight independently at dark (at about 10Lux). As soon as 10 Lux are exceeded the nightlight automatically disables itself.
- OFF: The nightlight is switched off
- Switching threshold: 10 lux
- Plug type: schuko plug
- Socket type: schuko with shutter
- Bulb type: LED (3pcs)
- Colour of the LED: white
- Power consumption: < 0,60W
- Size: 80 x 80 x 35mm (without plug) 80 x 80 x 66mm (incl. plug)
