Information for your safety and comfort

Read these instructions carefully. Keep this document for future reference. Follow all warnings and instructions marked on the product.

Turning the product off before cleaning

Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

Caution for plug as disconnecting device

Observe the following guidelines when connecting and disconnecting power to the external power supply unit:

- Install the power supply unit before connecting the power cord to the AC power outlet.
- Unplug the power cord before removing the power supply unit from the projector.
- If the system has multiple sources of power, disconnect power from the system by unplugging all power cords from the power supplies.

Caution for Accessibility

Be sure that the power outlet you plug the power cord into is easily accessible and located as close to the equipment operator as possible. When you need to disconnect power to the equipment, be sure to unplug the power cord from the electrical outlet.

Warnings!

- Do not use this product near water.
- Do not place this product on an unstable cart, stand or table. If the product falls, it could be seriously damaged.
- Slots and openings are provided for ventilation to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface.

This product should never be placed near or over a radiator or heat register, or in a built-in installation unless proper ventilation is provided.

- Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind onto or into the product.

- To avoid damage of internal components and to prevent battery leakage, do not place the product on a vibrating surface.
- Never use it under sporting, exercising, or any vibrating environment which will probably cause unexpected short current or damage rotor devices, lamp.

Using electrical power

- This product should be operated from the type of power indicated on the marking label. If you are not sure of the type of power available, consult your dealer or local power company.
- Do not allow anything to rest on the power cord. Do not locate this product where people will walk on the cord.
- If an extension cord is used with this product, make sure that the total ampere rating of the equipment plugged into the extension cord does not exceed the extension cord ampere rating. Also, make sure that the total rating of all products plugged into the wall outlet does not exceed the fuse rating.
- Do not overload a power outlet, strip or receptacle by plugging in too many devices. The overall system load must not exceed 80% of the branch circuit rating. If power strips are used, the load should not exceed 80% of the power strip's input rating.
- This product's AC adapter is equipped with a three-wire grounded plug. The plug only fits in a grounded power outlet. Make sure the power outlet is properly grounded before inserting the AC adapter plug. Do not insert the plug into a non-grounded power outlet. Contact your electrician for details.

.....

Warning! The grounding pin is a safety feature. Using a power outlet that is not properly grounded may result in electric shock and/or injury.

.....

Note: The grounding pin also provides good protection from unexpected noise produced by other nearby electrical devices that may interfere with the performance of this product.

- Use the product only with the supplied power supply cord set. If you need to replace the power cord set, make sure that the new power cord meets the following requirements: detachable type, UL listed/CSA certified, VDE approved or its equivalent, 4.5 meters (15 feet) maximum length.

Product servicing

Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Refer all servicing to qualified service personnel.

Unplug this product from the wall outlet and refer servicing to qualified service personnel when:

- the power cord or plug is damaged, cut or frayed
- liquid was spilled into the product
- the product was exposed to rain or water
- the product has been dropped or the case has been damaged
- the product exhibits a distinct change in performance, indicating a need for service
- the product does not operate normally after following the operating instructions

.....

Note: Adjust only those controls that are covered by the operating instructions, since improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal condition.

.....

Warning! For safety reasons, do not use non-compliant parts when adding or changing components. Consult your reseller for purchase options.

Your device and its enhancements may contain small parts. Keep them out of the reach of small children.

Additional safety information

- Do not look into the projector's lens when the lamp is on. The bright may hurt your eyes.
- Turn on the projector first and then signal sources
- Do not place the product in following environments:
 - Space that is poorly ventilated or confined. At least 50cm clearance from walls and free flow of air around the projector is necessary.
 - Locations where temperatures may become excessively high, such as inside of a car with all windows rolled up.
 - Locations where excessive humidity, dust, or cigarette smoke may contaminate optical components, shortening the life span and darkening the image.
 - Locations near fire alarms.
 - Locations with an ambient temperature above 40 °C/104 °F.
 - Locations where the altitudes are higher than 10000 feet.
- Unplug immediately if there is something wrong with your projector. Do not operate if smoke, strange noise or odor comes out of your projector. It

might cause fire or electric shock. In this case, unplug immediately and contact your dealer.

- Do not keep using this product to break or drop it. In this case contact your dealer for inspection.
- Do not face the projector lens to the sun. It can lead to fire.
- When switching the projector off, suggest to ensure the projector completes its cooling cycle before disconnecting power.
- Do not frequently turn off the main power abruptly or unplug the projector during operation. The best way is to wait for the fan to turn off before turning main power off.
- Do not touch air outlet grille and bottom plate which becomes hot.
- Clean the air filter frequently if have. The temperature inside may rise and cause damage when the filter/ventilation slots clogged with dirt or dust.
- Do not look into the air outlet grille when projector is operating. It may hurt your eyes.
- Always open the lens shutter or remove the lens cap when the projector is on.
- Do not block the projector lens with any object when the projector is under operation as this could cause the object to become heated and deformed or even cause a fire. To temporarily turn off the lamp, press **HIDE** on the remote control.
- The lamp becomes extremely hot during operation. Allow the projector to cool for approximately 45 minutes prior to removing the lamp assembly for replacement.
- Do not operate lamps beyond the rated lamp life. It could cause it to break on rare occasions.
- Never replace the lamp assembly or any electronic components unless the projector is unplugged.
- The product will detect the life of the lamp itself. Please be sure to change the lamp when is showing warning message.
- When changing the lamp, please allow unit to cool down, and follow all changing instructions.
- Reset the "Lamp Hour Reset" function from the Onscreen display "Management" menu after replacing the lamp module.
- Do not attempt to disassemble this projector. There are dangerous high voltages inside which may hurt you. The only user serviceable part is the lamp which has its own removable cover. Refer servicing only to suitable qualified professional service personnel.
- Do not stand the projector on end vertically. It may cause the projector to fall over, causing injury or damage.
- This product is capable of displaying inverted images for ceiling mount installation. Only use acer ceiling mount kit for mounting the projector and ensure it is securely installed.

Caution for Listening

To protect your hearing, follow these instructions.

- Increase the volume gradually until you can hear clearly and comfortably.
- Do not increase the volume level after your ears have adjusted.
- Do not listen to music at high volumes for extended periods.
- Do not increase the volume to block out noisy surroundings.
- Decrease the volume if you can't hear people speaking near you.

Disposal instructions

Do not throw this electronic device into the trash when discarding. To minimize pollution and ensure utmost protection of the global environment, please recycle. For more information on the Waste from Electrical and Electronics Equipment (WEEE) regulations, visit

<http://www.acer-group.com/public/Sustainability/sustainability01.htm>

Mercury advisory

For projectors or electronic products containing an LCD/CRT monitor or display:

“Lamp(s) contain Mercury,
Dispose Properly.”

Lamp(s) inside this product contain mercury and must be recycled or disposed of according to local, state or federal laws. For more information, contact the Electronic Industries Alliance at www.eiae.org. For lamp-specific disposal information, check www.lamprecycle.org

First things first

Usage Notes

Do:

- Turn off the product before cleaning.
- Use a soft cloth moistened with mild detergent to clean the display housing.
- Disconnect the power plug from AC outlet if the product is not being used for a long period of time.

Don't:

- Block the slots and openings on the unit provided for ventilation.
- Use abrasive cleaners, waxes or solvents to clean the unit.
- Use under the following conditions:
 - In extremely hot, cold or humid environments.
 - In areas susceptible to excessive dust and dirt.
 - Near any appliance that generates a strong magnetic field.
 - Place In direct sunlight.

Precautions

Follow all warnings, precautions and maintenance as recommended in this user's guide to maximize the life of your unit.

Warning:

- Do not look into the projector's lens when the lamp is on. The bright light may hurt your eyes.
- To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.
- Please do not open or disassemble the product as this may cause electric shock.
- When changing the lamp, please allow unit to cool down, and follow all changing instructions.
- This product will detect the life of the lamp itself. Please be sure to change the lamp when it shows warning messages.
- Reset the "Lamp Hour Reset" function from the Onscreen display "Management" menu after replacing the lamp module.
- When switching the projector off, please ensure the projector completes its cooling cycle before disconnecting power.
- Turn on the projector first and then the signal sources.
- Do not use lens cap when projector is in operation.
- When the lamp reaches the end of its life, it will burn out and may make a loud popping sound. If this happens, the projector will not turn back on until the lamp module has been replaced. To replace the lamp, follow the procedures listed under "Replacing the Lamp".

Introduction

Product Features

This product is a single-chip DLP® projector. Outstanding features include:

- DLP® technology
- S1283Hne/T410DTB/XS-X30HGM/F1283Hne/S1283e/T410B/XS-X30M/DNX1322/F1283e/S1283/T410/XS-X30 series: True XGA 1024 x 768 resolution
S1383WHne/T420DTB/XS-W30HGM/F1383WHne series: True WXGA 1280 x 800 resolution
Full/4:3/16:9/L.Box aspect ratio supported
- Enables projecting 3D content via DLP Link Technology
- Acer ColorBoost technology delivers nature's true colors for vivid, life-like images
- High brightness and contrast ratio
- Versatile display modes (Bright, Presentation, Standard, Video, Game, Education, Movie, Dark Cinema, Sports, User) enable optimum performance in any situation
- NTSC / PAL / SECAM compatible and HDTV (720p, 1080i, 1080p) supported
- Lower power consumption and economy (ECO) mode extends lamp life
- Acer EcoProjeciton Technology delivers Intelligent power management approach and physical efficiency improvement
- Equipped with HDMI™ & MHL connection supporting HDCP
- Advanced digital keystone correction optimizes presentations
- Smart detection delivers quick, intelligent source detection
- Multi-language onscreen display (OSD) menus
- Manual focus projection lens zooms up to 1.0x
- 2x digital zoom and pan function
- Microsoft® Windows® 2000, XP, Vista®, Windows 7, Windows 8, Macintosh® OS compliant

.....
Note: Functions vary depending on model definition.

Package Overview

This projector comes with all the items shown below. Check to make sure your unit is complete. Contact your dealer immediately if any thing is missing.

Projector

Power cord

VGA cable

2 x Batteries
(option)

Security card

User's guide

Quick start guide

Carrying case
(option)

Dust filters
(option)

Remote control

SmartPen & PB dongle
(option)

3D dust filter
(option)

Lens shield
(option)

Electrostatic filters
(option)

Dust shield pack

4	Focus ring	8	Lens cap

Right / Rear side

#	Description	#	Description
1	Composite video input connector	8	3.5mm Microphone Input
2	S-Video input connector	9	LAN (RJ45 Port for 10/100M Ethernet)
3	Monitor loop-through output connector (for VGA IN 2 only)	10	RS232 connector
4	PC analog signal/HDTV/component video input connector (VGA IN 1/VGA IN 2)	11	Mini USB connector
5	Security bar	12	HDMI/MHL connector
6	Audio input connector (S-Video, Composite)	13	Power socket
7	Audio out connector	14	Kensington™ lock port

Note: Functions vary depending on model definition.

Control Panel

#	Icon	Function	Description
1		POWER	Power Indicator LED
2		LAMP	Lamp Indicator LED
3		TEMP	Temp Indicator LED
4		RESYNC	Automatically synchronizes the projector to the input source.
5		SOURCE	Changes the active source.
6		POWER	See the contents in "Turning the Projector On/Off" section.
7		Mode	Press "Mode" to select the display mode from Bright, Presentation, Standard, Video, Game, Education and User.
8		MENU	- Press "MENU" to launch the Onscreen display (OSD) menu, back to the previous step for the OSD menu operation or exit the OSD menu. - Confirm your selection of items.
9		Four directional select keys	Use to select items or make adjustments to your selection.
10		Keystone	Adjusts the image to compensate for distortion caused by tilting the projector (± 40 degrees).

Remote Control Layout

#	Icon	Function	Description
1		Infrared transmitter	Sends signals to the projector.
2		POWER	Refer to the "Turning the Projector On/Off" section.
3		3D	Press "3D" to select 3D models.
4		SOURCE	Changes the active source.
5		MODE	Press "MODE" to select the display mode from Bright, Presentation, Standard, Video, Game, Education and User.
6		HIDE	Momentarily turns off the video. Press "HIDE" to hide the image, press again to display the image.
7		MEDIA_SETUP	No function.
8		RATIO	To choose the desired aspect ratio.
9		ZOOM	Zooms the projector display in or out.
10		FREEZE	To pause the screen image.
11		MENU	- Press "MENU" to launch the Onscreen display (OSD) menu, back to the previous step for the OSD menu operation or exit the OSD menu. - Confirm your selection of items.
12		KEYSTONE	Adjusts the image to compensate for distortion caused by tilting the projector (± 40 degrees).

#	Icon	Function	Description
13		Four directional select keys	Use up, down, left, right buttons to select items or make adjustments to your selection.
14		Pre./Rewind	No function.
		Enter/ Play/ Pause	No function.
		Back/Stop	No function.
		Next/Fast forward	No function.
15		KeyPad 0~9	Press " 0~9 " to input a password in the "Security" OSD.
16		PgUp/PgDn	For computer mode only. Use this button to select the next or previous page. This function is only available when USB Ctrl connector (mini type B) is connected to a computer via a USB cable.
17		COMPONENT	No function.
18		VIDEO	To change source to COMPOSITE VIDEO.
19		VGA	Press " VGA " to change source to the VGA connector. This connector supports analog RGB, YPbPr (480p/576p/720p/1080i), YCbCr (480i/576i) and RGBsync.
20		S-VIDEO	To change source to S-Video.
21		SD/USB A	No function.
22		USB B	For USB control and firmware upgrade.
23		HDMI/DVI	To change source to HDMI/MHL. (no DVI function)
24		LAN/WiFi	Press "LAN/WiFi" to display the image which is wire or wirelessly transmitted from the PC to the projector via the "Acer LAN webpage management" utility.

Note: Functions vary depending on model definition.

MHL (Mobile High-Definition Link) Control

#	Icon	Component	Description
1		MODE	- Press "MODE" button for one second to activate the MHL Control Mode. - To exit, press the "MODE" button again.
2		SOURCE	Press the "SOURCE" button to toggle between Navigation or Numeric mode.
3		MENU	Press to launch the root memu. (only for Navigation mode)
4		Direction Keys	Use up, down, left, right buttons to select items or make adjustments to your selection. (only for Navigation mode)
5		Select	To select the file. (only for Navigation mode)
6		Exit	To exit the file. (only for Navigation mode)
7		PgUp/PgDn	Use the button to select the next or previous page. (only for Navigation mode)
8		KeyPad 0~9	Number buttons. (only for Numeric mode)

Getting Started

Connecting the Projector

#	Description	#	Description
1	Power cord	8	Audio cable jack/RCA
2	VGA cable	9	RS232 cable
3	Microphone cable	10	USB cable
4	VGA to component/HDTV adapter	11	HDMI cable
5	3 RCA component cable	12	MHL cable (MicroUSB to HDMI)
6	S-Video cable	13	RJ45 cable
7	Composite video cable		

.....

Note: To ensure the projector works well with your computer, please make sure the timing of the display mode is compatible with the projector.

Note: Functions vary depending on model definition.

Note: USB cable needs powered extender if the length is over 5 m.

Note: VGA OUT loops through for VGA IN 2 only.

Note: Some smartphones require a converter (supplied by smartphone maker) to enable the MHL function.

Turning the Projector On/Off

Turning on the Projector

- 1 Ensure that the power cord and signal cable are securely connected. The Power indicator LED will flash red.
- 2 Turn on the projector by pressing "**Power**" button on the control panel or remote control, and the Power indicator LED will turn blue.
- 3 Turn on your source (computer, notebook, video player ,etc.). The projector will detect your source automatically.
 - If the screen displays "Lock" and "Source" icons, it means the projector is locked onto a specific source type and there is no such type of input signal detected.
 - If the screen displays "No Signal", please make sure the signal cables are securely connected.
 - If you connect to multiple sources at the same time, use the "**Source**" button on either control panel or the remote control or direct source key on the remote control to switch between inputs.

Turning the projector off

- 1 To turn the projector off, press and hold the power button. This message appears: **"Please press the power button again to complete the shutdown process."** Press the power button again.
- 2 The LED power indicator will turn RED and blink rapidly after the projector is turned off, and the fan(s) will continue to operate for about 2 minutes to ensure that the system cools properly. (only supported under "Instant Resume" mode)
- 3 As long as the power cord remains plugged in, you can press the power button to turn the projector immediately back on anytime during the 2-minute shutdown process. (only supported under "Instant Resume" mode)
- 4 Once the system has finished cooling, the LED power indicator will stop blinking and turn solid red to indicate standby mode.
- 5 It is now safe to unplug the power cord.

Warning indicators:

- **"Projector Overheated. Lamp will automatically turn off soon."**
This onscreen message indicates that the projector has overheated. The lamp will automatically turn off, the projector will automatically shut down, and the LED temp indicator will turn solid red. Contact your local dealer or service center.
- **"Fan failed. Lamp will automatically turn off soon."**
This onscreen message indicates that the fan has failed. The lamp will automatically turn off, the projector will automatically shut down, and the LED temp indicator will blink. Contact your local dealer or service center.

Note: Whenever the projector automatically shuts down and the LED lamp indicator turns solid red, contact your local reseller or service center.

Note: Functions vary depending on model definition.

Adjusting the Projected Image

Adjusting the Height of Projected Image

The projector is equipped with elevator feet for adjusting the height of image.

To raise/lower the image:

Use Tilt adjusting wheel to fine-tune the display angle.

How to optimize image size and distance

Consult the table below to find the optimal image sizes achievable when the projector is positioned at a desired distance from the screen.

- XGA series

If the projector is 1.0 m from the screen, good image quality is possible for image sizes around 80".

Note: Remind as below figure, the space of 140 cm height is required when located at 1.0 m distance.

Desired Distance (m) <A>	Screen size		Top
	(Min zoom)		
	Diagonal (inch) 	W (cm) x H (cm)	From base to top of image (cm) <C>
0.4	32	65 x 49	56
1	80	162 x 122	140
1.5	120	243 x 182	210
2	160	324 x 243	280
2.5	199	405 x 304	349
3.1	247	502 x 377	433
3.5	279	567 x 425	489
4	319	648 x 486	559
4.5	359	729 x 547	629
5	399	810 x 608	699
5.5	439	891 x 669	769
6	479	972 x 729	839
6.5	518	1053 x 790	909
7	558	1135 x 851	979
7.5	598	1216 x 912	1048
8	638	1297 x 972	1118
8.5	678	1378 x 1033	1188
9	718	1459 x 1094	1258
9.5	758	1540 x 1155	1328
10	798	1612 x 1216	1398

Zoom Ratio: 1.0x

- WXGA series

If the projector is 1.0 m from the screen, good image quality is possible for image sizes around 89".

Note: Remind as below figure, the space of 135 cm height is required when located at 1.0 m distance.

Desired Distance (m) <A>	Screen size		Top
	(Min zoom)		
	Diagonal (inch) 	W (cm) x H (cm)	From base to top of image (cm) <C>
0.4	36	77 x 48	54
1	89	192 x 120	135
1.5	134	288 x 180	202
2	178	384 x 240	270
2.5	223	480 x 300	337
3	267	576 x 360	405
3.4	303	653 x 408	458
4	356	768 x 480	539
4.5	401	864 x 540	607
5	446	960 x 600	674
5.5	490	1056 x 660	742
6	535	1152 x 720	809
6.5	579	1248 x 780	876
7	624	1344 x 840	944
7.5	668	1440 x 900	1011
8	713	1536 x 960	1079
8.5	757	1631 x 1020	1146
9	802	1727 x 1080	1214
9.5	847	1823 x 1140	1281
10	891	1919 x 1200	1348

Zoom Ratio: 1.0x

User Controls

Installation menu

The installation menu provides an onscreen display (OSD) for projector installation and maintenance. Use the OSD only when the message "No signal input" is displayed on the screen.

The menu options include settings and adjustments for screen size and distance, focus, keystone correction and more .

- 1 Turn on the projector by pressing "**Power**" button on the control pad.
- 2 Press the "**MENU**" button on the control pad to launch the OSD for projector installation and maintenance.

- 3 The background pattern acts as a guide to adjusting the calibration and alignment settings, such as screen size and distance, focus and more .
- 4 The Installation menu includes the following options:
 - Projection Mode
 - Manual Keystone settings
 - Control Channel settings
 - LAN IP/Mask settings
 - Language settings
 - Reset to factory default function

Use the up and down arrow keys to select an option, the left and right arrow keys to adjust selected option settings, and the right arrow key to enter a submenu for feature setting. The new settings will be saved automatically upon exiting the menu.

- 5 Push the MENU button anytime to exit the menu and return to the Acer welcome screen.

Note: Functions vary depending on model definition.

Onscreen Display (OSD) Menus

The projector has multilingual OSD that allow you to make image adjustments and change a variety of settings.

Using the OSD menus

- To open the OSD menu, press **"MENU"** on the remote control or control panel.
- When the OSD is displayed, use the keys to select any item in the main menu. After selecting the desired main menu item, press to enter submenu for feature setting.
- Use the keys to select the desired item and adjust the settings by using the keys.
- Select the next item to be adjusted in the submenu and adjust as described above.
- Press **"MENU"** on the remote control or control panel, the screen will return to the main menu.
- To exit OSD, press **"MENU"** on the remote control or control panel again. The OSD menu will close and the projector will automatically save the new settings.

Note: Some of the following OSD settings may not be available. Please refer to the actual OSD of your projector.

Note: Functions vary depending on model definition.

Color

Display Mode	There are many factory presets optimized for various types of images. - Bright: For brightness optimization. - Presentation: For meeting presentation. - Standard: For common environment. - Video: For playing video in a bright environment. - Education: For education environment. - User: Memorize user's settings.
Wall color	Use this function to choose a proper color according to the wall. There are several choices, including white, light yellow, light blue, pink, dark green. It will compensate the color deviation due to the wall color to show the correct image tone.
Brightness	Adjust the brightness of the image. - Press ◀ to darken the image. - Press ▶ to lighten the image.
Contrast	"Contrast" controls the difference between the lightest and darkest parts of the picture. Adjusting the contrast changes the amount of black and white in the image. - Press ◀ to decrease the contrast. - Press ▶ to increase the contrast.
Saturation	Adjusts a video image from black and white to fully saturated color. - Press ◀ to decrease the amount of color in the image. - Press ▶ to increase the amount of color in the image.
Tint	Adjusts the color balance of red and green. - Press ◀ to increase the amount of green in the image. - Press ▶ to increase the amount of red in the image.
Color Temperature	Mode Use this function to choose CT1, CT2 (Native), CT3, User mode.
	R Gain Adjusts the red gain for color temperature optimization.
	G Gain Adjusts the green gain for color temperature optimization.
	B Gain Adjusts the blue gain for color temperature optimization.
Dynamic Black	Choose "On" to automatically optimize the display of dark movie scenes enabling them to be shown in incredible detail.
Gamma	Effects the representation of dark scenery. With greater gamma value, dark scenery looks brighter.

.....

Note: "Saturation" and "Tint" functions are not supported under computer or HDMI mode.

Note: Constant Brightness is available while both of "Dynamic Black" and "ECO Mode" are off.

Note: Functions vary depending on model definition.

Image

Projection	 Front-Desktop: The factory default setting.  Rear-Desktop: When you select this function, the projector reverses the image so you can project from behind a translucent screen.  Rear-Ceiling: When you select this function, the projector reverses and inverts the image at same time. You can project from behind a translucent screen with ceiling mounted projection.  Front-Ceiling: When you select this function, the projector inverts the image for ceiling-mounted projection.
Aspect Ratio	Use this function to choose your desired aspect ratio. Auto: Keep the image with original width-highth ratio and maxi mize the image to fit native horizontal or vertical pixels. Full: Resize image to fit full screen by width (1280 pixels) and height (800 pixels). 4:3: The image will be scaled to fit the screen and displayed using a 4:3 ratio. 16:9: The image will be scaled to fit the width of the screen and the height adjusted to display the image using a 16:9 ratio. L.Box: Keep original signal aspect ratio and zoom in by 1.333 times.
Manual Keystone	Adjust image distortion caused by tilting projection. (± 40 degrees) 
Sharpness	Adjusts the sharpness of the image. - Press  to decrease the sharpness. - Press  to increase the sharpness.
H. Position (Horizontal position)	- Press  to move the image left. - Press  to move the image right.
V. Position (Vertical position)	- Press  to move the image down. - Press  to move the image up.
Frequency	"Frequency" changes the projector's refresh rate to match the frequency of your computer's graphics card. If you can see a vertical flickering bar in the projected image, use this function to make the necessary adjustments.
Tracking	Synchronizes the signal timing of the projector with the graphics card. If you experience an unstable or flickering image, use this function to correct it.
HDMI Color Range	Adjust the color range of the HDMI image data to correct color display error. Auto: Automatically adjust by information from player. Limited Range: Prosess the input image as limited color range data. Full Range: Prosess the input image as full color range data.

HDMI Scan Info	Adjust the overscan ratio of the HDMI image on screen. • Auto: Automatically adjust by information from player. • Underscan: Always no overscan on HDMI image. • Overscan: Always keep overscan on HDMI image.
----------------	--

.....

Note: "H. Position", "V. Position", "Frequency" and "Tracking" functions are not supported under HDMI or Video mode.

Note: "HDMI Color Range" and "HDMI Scan Info" functions are only supported under HDMI mode.

Note: Functions vary depending on model definition.

Setting

SmartPen	The Acer SmartPen can work in place of your regular computer mouse. Just hold the pen in your hand, and point it at the projected image to point, click, and drag. It gives you more flexibility to operate your computer without standing next to it. Pen Function To use the Acer SmartPen, select "On" to activate this function. Link Channel Set a channel to differentiate between projectors and communicate with the Acer SmartPen. Dual Pen Choose "Enable" to stay on Dual Pen mode; choose "Disable" to return Single Pen mode. Double Click Speed Adjust the double click speed of your pen to make it response faster or slower to meet your needs. Pen Pairing To pair a pen, select "Pairing" and follow the on-screen instructions. To release a pen, select "Release" and follow the on-screen instructions. Information Displays more information about smart pen such as battery capability and RF strength. For more details, see the notes following this table. Mac OS Optimization If the screen shows the offset phenomenon when using SmartPen function under Mac OS, it's required to select "On" to optimize and correct it. Note: Mac OS Optimization is for Mac OS only.
Startup Screen	Use this function to select your desired startup screen. If you change the setting, the changes will take effect when you exit the OSD menu. • Acer: The default startup screen of your Acer projector. • User: Use memorize picture from "Screen Capture" function.
Screen Capture	Use this function to customize the startup screen. To capture the image that you want to use as the startup screen, follow the instructions below. Notice: Before proceeding with the following steps, make sure that the "Keystone" is set to the default value 0 and the aspect ratio is set to 4:3. For details, refer to the "Image" section. • Change the "Startup Screen" from the default setting "Acer" to "User". • Press "Screen Capture" to customize the startup screen. • A dialog box appears to confirm the action. Choose "Yes" to use the current image as your customized startup screen. The capture range is the red rectangular area. Choose "No" to cancel the screen capture and exit the onscreen display (OSD). • A message appears, stating that the screen capture is in progress. • When the screen capture is finished, the message disappears and the original display is shown. • The customized startup screen, as shown below, takes effect when there is a new input signal or when you restart the projector.

Source Lock	When Source Lock is turned "Off", the projector will search for other signals if the current input signal is lost. When Source Lock is turned "On", it will "lock" the current source channel unless you press "Source" button on the remote control for the next channel.
Closed Caption	Selects a preferred closed captioning mode from CC1, CC2, CC3, CC4, (CC1 displays captions in the primary language in your area). Select "Off" to turn off the captioning feature. This function is only available when a composite video or S-Video input signal is selected and its system format is NTSC. <Note> Set your screen aspect ratio to 4:3. This function is not available when the aspect ratio is "16:9" or "Auto" .
VGA OUT (Standby)	Default is "Off". Choose "On" to enable VGA OUT connection.
Reset	Press the  button and choose "Yes" to return the parameters on all menus to the factory default settings.
Security	Security This projector provides a useful security function for the administrator to manage usage of the projector . Press  to change the "Security" setting. If the security function is enabled, you must enter the "Administrator Password" first before changing the security settings. - Select "On" to enable the security function. The user has to enter a password to operate the projector. Please refer to the "User Password" section for details. - If "Off" is selected, then the user can turn on the projector without password. Timeout(Min.) Once "Security" is activated to "On", the administrator can set timeout function. - Press  or  to select the timeout interval. - The range is from 10 minute to 990 minutes. - When the time is up, the projector will prompt the user to enter the password again. - The factory default setting of "Timeout(Min.)" is "Off" . - Once the security function is enabled, the projector will request user to enter password when switch on the projector . Both "User Password" and "Administrator Password" can be accepted for this dialogue.

	User Password - Press  to setup or change the "User Password". - Press number keys to set your password on the remote control and press "MENU" to confirm. - Press  to delete character. - Enter the password when you see "Confirm Password" displayed. - The password should be between 4 and 8 characters long. - If you select "Request password only when plugging the power cord in.", the projector will prompt the user to enter the password every time the power cord is plugged. - If you select "Always request password while projector turns on.", the user has to enter the password every time when the projector is turned on.
	Administrator Password The "Administrator Password" can be used in both the "Enter Administrator Password" and "Enter Password" dialog boxes. - Press  to change the "Administrator Password". - The factory default of "Administrator Password" is "1234". If you forgot your administrator password, do the following to retrieve the administrator password: - An unique 6-digit "Universal Password" which is printed on the Security Card (please check accessory in the box). This unique password is the number which will be accepted by projector anytime no matter what the Administrator Password is. - If losing this security card and number, please contact with an Acer service center.
	Lock to user startup screen Default Lock User Startup Screen is "Off". If lock user startup screen is "On", users cannot change startup screen anymore and avoid other users change that arbitrarily. Choose "Off" to unlock startup screen.
LAN/Control Channel	Control Channel Default is "RS232". Choose "LAN" to enable LAN connection.
	LAN IP/Mask Identify IP and Mask address.
	LAN Reset Reset LAN function.

Note: Functions vary depending on model definition.

About Acer SmartPen Setting

Note 1: Preparations

1. Turn off the projector by pressing the Power button.
2. Use a screwdriver to remove the screw from the cover. (Illustration #1)
Push up and remove the cover. (Illustration #2)
Plug the PB dongle into the PB dongle slot on the projector. (Illustration #3)
Reverse the above steps. (Illustration #2→#1)

3. Connect the projector to your computer with a USB cable and VGA cable.
4. Turn on the projector and make sure it is projecting the computer's display.
5. Enable the pen by selecting "On" in the Settings > SmartPen > Pen Function menu. The pen's link light will start to blink.
6. When the green light stays on, the connection is successful.
7. Point the pen at the screen to point, click or drag.

Note 2: Overview of the Acer SmartPen

Note 3: Charging the battery

1. To charge the battery, open the flap on the back of the pen to expose the USB port.
2. Take the USB cable, and plug the smaller connector into the pen and the larger one into a computer. Make sure the computer is turned on.
3. The battery light stays on while the battery is charging. When charging is complete, the battery light turns off. You can then disconnect the USB cable, or leave it connected.

Note 4: Other notes about using the pen

1. Avoid standing too far from the screen. The closer you are to the screen, the better performance the pen has.
2. Hold the pen the way you hold a remote control or a pen.
3. A full battery charge takes 3-4 hours and will allow 30 hours non-stop use. The battery is only rechargeable, and is not user serviceable or user replaceable.
4. Avoid shadows! The pen cannot work if its tip is in a shadow or it is pointing at a shadow.

5. For "Dual Pen" mode to work correctly you must have two smart pens and the NXBoard software installed after selecting "Enable" in Dual Pen menu.

For "Dual Pen" mode to work correctly,
you must have two smart pens and the NXBoard software installed.

Management

ECO Mode	Choose "On" to dim the projector lamp which will lower power consumption, extend the lamp life and reduce noise. Choose "Off" to return normal mode.
Constant Brightness	Choose "On" to keep the brightness constant. Choose "Off" to return normal mode.
High Altitude	Choose "On" to turn on High Altitude mode. Operate the fans at full speed continuously to allow for proper high altitude cooling of the projector.
Turn Off Mode	- Instant Off: Shuts down the projector without fan cooling. - Instant Resume: Resumes the system when the Power button is pressed again within 2 minutes.
Auto Shutdown	The projector will automatically shutdown when there is no signal input after the allocated time. (default is 15 minutes)
Lamp Hour Elapse	Displays the lamp's elapsed operating time (in hours).
Lamp Reminding	Activate this function to display a reminder to change the lamp 30 hours before its expected end-of-life.
Lamp Hour Reset	Press the  button and choose "Yes" to turn the lamp hour counter to 0 hours.
3D Dust Filter	Replacement Reminder Default of Replacement Reminder is "Off". Select "On" to activate filter replacement reminder after installing 3D dust filter.
	Place Choose one of three places (indoor, outdoor, and Loess area) based on actual environment. The default is "indoor".
	Filter Hour Show the filter used hour information. When meeting max time based on selected place, it will pop up a warning message to ask for replacing filter.
	Filter Reset Press the  button and choose "Yes" to return the parameter to the factory default after replacing new 3D dust filter.

Note: "Constant Brightness" is available while both of "Dynamic Black" and "ECO Mode" are off.

Note: You have to perform "Lamp Hour Reset" after replacing with new lamp; otherwise, "Constant Brightness" cannot be activated.

Note: Functions vary depending on model definition.

Audio

Volume	• Press ◀ to decrease the volume. • Press ▶ to increase the volume.
Microphone/Audio In	Adjust the volume from "MIC" or "Audio In" connector.
Mute	• Choose "On" to mute the volume. • Choose "Off" to restore the volume.

Note: Functions vary depending on model definition.

3D

3D	Choose "On" to enable DLP 3D function. - On: Choose this item while using DLP 3D glasses, 120Hz 3D capable graphics cards and HQFS format file or DVD with corresponding SW player. - Off: Turn off 3D mode.
3D Format	If the 3D content is not displayed correctly, you can select a 3D format that suits the 3D content you are viewing and obtain the best result.
24P 3D	Choose "96Hz" or "144Hz" to compatible with 3D glasses.
3D L/R Invert	If you see a discrete or overlapping image while wearing DLP 3D glasses, you may need to execute "Invert" to get best match of left/right image sequence to get the correct image (for DLP 3D).
3D Warning Message	Choose "On" to display the 3D warning message. Note: 3D display is now enabled. 1. Please make sure you have the correct 3D signals and glasses. 2. Remember to turn 3D off if you don't want to see 3D images. 3. If the 3D display isn't correct, please try to enable 3D Sync Invert. 4. Display mode options will be disabled while in 3D mode.

Note: It needs correct settings on graphic card 3D application program for correct 3D display.

Note: The SW players, such as Stereoscopic Player and DDD TriDef Media Player can support 3D format files. You can download these three players on web page below,

- Stereoscopic Player (Trial):

http://www.3dtv.at/Downloads/Index_en.aspx

- DDD TriDef Media Player (Trial):

<http://www.tridef.com/download/TriDef-3-D-Experience-4.0.2.html>

Note: "3D L/R Invert" is only available when 3D is enabled.

Note: There has reminder screen if 3D still enable when power on projector. Please adjust setting depended on your purpose.

Language

Language	Choose the multilingual OSD menu. Use the  or  key to select your preferred menu language. Press  to confirm the selection.

Acer LAN webpage management

How to login in

Open browser and enter the Server IP address by 192.168.100.10 to find below homepage of acer LAN webpage management. A password is needed to login in before using.

Select a user. **Administrator** is with high authority that can process more operations such as network setting and alert setting. Default password of administrator is "admin". And **User** is with normal authority with default password by "user". Click Login button to enter into homepage with correct password.

Home

Home page shows connection status and you can find three main functions listed, **Control Panel**, **Networking Setting** and **Alert Setting**.

Note: Control Panel and Networking Setting are only for Administrator account.

Control Panel

Enduser can control and adjust projector setting value via this page.

Network Setting

Enduser can set IP address, group name and password as wish. After change network configurations or password, projector will reboot automatically after press "Apply".

Note: Group Name and projector Name must be less than 32 characters.

Alert Setting

Enduser can send mail with error message right away if projector has problem.

Logout

After tap Logout, you will return to login page within 5 seconds.

.....
Note: Functions vary depending on model definition.

Appendices

Troubleshooting

If you experience a problem with your Acer projector, refer to the following troubleshooting guide. If the problem persists, please contact your local reseller or service center.

Image Problems and Solutions

#	Problem	Solution
1	No image appears onscreen	• Connected as described in the "Getting Started" section. • Ensure none of the connector pins are bent or broken. • Check if the projector lamp has been securely installed. Please refer to the "Replacing the Lamp" section. • Make sure you have removed the lens cap and the projector is switched on.
2	Partial, scrolling or incorrectly displayed image (for PC (Windows 2000/XP/Vista/Windows 7/Windows 8))	• For an incorrectly displayed image: • Open "My Computer", open the "Control Panel", and then double-click the "Display" icon. • Select the "Settings" tab. • Verify that your display resolution setting is lower than or equal to WUXGA-RB (1920 x 1200). • Click the "Advanced Properties" button. If the problem still appears, change the monitor display you are using and follow the steps below: • Verify that the resolution setting is lower than or equal to WUXGA-RB (1920 x 1200). • Click the "Change" button under the "Monitor" tab. • Click "Show all devices". Next, select "Standard monitor types" under the SP box, and choose the resolution mode you need under the "Models" box. • Verify that the resolution setting of the monitor display is lower than or equal to WUXGA-RB (1920 x 1200).

3	Partial, scrolling or incorrectly displayed image (For notebooks)	- For an incorrectly displayed image: - Follow the steps for item 2 (above) to adjust the resolution of your computer. - Press the toggle output settings. Example: [Fn]+[F4], Compaq [Fn]+[F4], Dell [Fn]+[F8], Gateway [Fn]+[F4], IBM [Fn]+[F7], HP [Fn]+[F4], NEC [Fn]+[F3], Toshiba [Fn]+[F5] - If you experience difficulty changing resolutions or your monitor freezes, restart all equipment including the projector.
4	The screen of the notebook computer is not displaying your presentation	- If you are using a Microsoft® Windows® based notebook: Some notebook PCs may deactivate their own screens when a second display device is in use. Each has a different way to be reactivated. Refer to your computer's manual for detailed information. - If you are using an Apple® Mac® OS based notebook: In System Preferences, open Display and select Video Mirroring "On".
5	Image is unstable or flickering	- Adjust the "Tracking" to correct it. Refer to the "Image" section for more information. - Change the display color depth settings on your computer.
6	Image has vertical flickering bar	- Use "Frequency" to make an adjustment. Refer to the "Image" section for more information. - Check and reconfigure the display mode of your graphics card to make it compatible with the projector.
7	Image is out of focus	- Make sure the lens cap is removed. - Adjusts the focus ring on the projector lens. - Make sure the projection screen is within the required distance of 3.3 to 12.5 feet (1.0 to 3.8 meters) (XGA series) / 3.3 to 11.0 feet (1.0 to 3.4 meters) (WXGA series) from the projector. Refer to the "How to Get a Preferred Image Size by Adjusting Distance and Zoom" section for more information.
8	Image is stretched when displaying a "widescreen" DVD title	When you play a DVD encoded in anamorphic or 16:9 aspect ratio you may need to adjust the following settings: - If you play a 4:3 format DVD title, please change the format to 4:3 in the projector OSD. - If the image is still stretched, you will also need to adjust the aspect ratio. Set up the display format to 16:9 (wide) aspect ratio on your DVD player.

9	Image is too small or too large	• Adjust the zoom lever on the top of the projector. • Move the projector closer to or further from the screen. • Press "MENU" on the remote control. Go to "Image -> Aspect Ratio" and try different settings or press "RATIO" on the remote control to adjust directly.
10	Image has slanted sides	• If possible, reposition the projector so that it is centered on the screen. • Press the "Keystone Δ / ∇" button on the remote control until the sides are vertical. • Press "MENU" on the remote control to open the OSD menu. Go to "Image"->"Keystone" to make adjustments.
11	Image is reversed	• Select "Image --> Projection" on the OSD and adjust the projection direction.

OSD Messages

#	Condition	Message Reminder
1	Message	- Fan Fail - the system fan is not working. Fan Fail. Lamp will automatically turn off soon. - Projector Overheated - the projector has exceeded its recommended operating temperature and must be allowed to cool down before it may be used. Please check the following message. Projector Overheated. Lamp will automatically turn off soon. Please also check the dust filters if they are installed. If the dust filter is clogged with dust, please clean it. Please refer to "Cleaning and replacing the dust filter" for details. - Replace the lamp - the lamp is about to reach its maximum lifetime. Prepare to replace it soon. Lamp is approaching the end of its useful life in full power operation. Replacement suggested!

Problems with the Projector

#	Condition	Solution
1	The projector stops responding to all controls	If possible, turn off the projector, then unplug the power cord and wait at least 30 seconds before reconnecting power.
2	Lamp burns out or makes a popping sound	When the lamp reaches the end of its useful life, it will burn out and may make a loud popping sound. If this happens, the projector will not turn on until the lamp module has been replaced. To replace the lamp, follow the procedures in the "Replacing the Lamp" section.

Cleaning and replacing the dust filters

<<Type I>>

Cleaning the dust filters

Clean the dust filters after every 1000 hours of use. If they are not cleaned periodically, they can become clogged with dust, preventing proper ventilation. This can cause overheating and damage the projector.

Follow these steps:

- 1 Turn the projector off. Wait for the Power LED to stop flashing then unplug the power cord.
- 2 Allow the projector at least 30 mins to cool down.
- 3 Pull out the dust filter. (Illustration #1)
- 4 To clean the dust filters, use a small vacuum cleaner designed for computers and other office equipment. (Illustration #2)
- 5 If the dirt is difficult to remove or the filter is broken, please contact your local dealer or service center to obtain a new filter.

<<Type II>>

Replacing the dust shield pack

Follow these steps:

Replacing the **3D dust filter**

- 1 Turn the projector off. Wait for the Power LED to stop flashing then unplug the power cord.
- 2 Allow the projector at least 30 mins to cool down.
- 3 Use a screwdriver to remove the screw from the 3D dust filter. (Illustration #1)
- 4 Remove the 3D dust filter. (Illustration #2)

Replacing the **Lens shield**

- 1 Open the top cover from the lens shield. (Illustration #3)
- 2 Use a screwdriver to remove the screws from the lens shield. (Illustration #4)
- 3 Remove the lens shield. (Illustration #5)

To install the 3D dust filter and lens shield, please reverse previous steps.

To reset 3D dust filter after installing.

Note: Considering the performance of 3D dust filter, it is not recommended to clean the electrostatic filters. Please contact your local dealer or serviced center to purchase and replace new electrostatic filters inside 3D dust filter.

Replacing the Lamp

Use a screwdriver to remove the screw(s) from the cover, and then pull out the lamp.

The projector will detect the lamp life. You will be shown a warning message **"Lamp is approaching the end of its useful life in full power operation. Replacement suggested!"** When you see this message, change the lamp as soon as possible. Make sure the projector has been cooling down for at least 30 minutes before changing the lamp.

Warning: The lamp compartment is hot! Allow it to cool down before changing the lamp.

To Change the Lamp

Turn off the projector by pressing the Power button.

Allow the projector at least 30 minutes to cool down.

Disconnect the power cord.

- 1 Use a screwdriver to remove the screw from the cover. (Illustration #1)
Push up and remove the cover. (Illustration #2)
- 2 Remove the screw that secure the lamp module. (Illustration #3)
Pull out the lamp plug. (Illustration #4)
Lift the handle so that it stands up. (Illustration #5)
- 3 Lift the handle so that it stands up. Pull out the lamp module by force. (Illustration #6)

To replace the lamp module, use a new lamp and reverse the above steps.

Warning: To reduce the risk of personal injury, do not drop the lamp module or touch the lamp bulb. The bulb may shatter and cause injury if it is dropped.

Ceiling Mount Installation

If you wish to install the projector using a ceiling mount, please refer to the steps below:

- 1 Drill four holes into a solid, structurally sound part of the ceiling, and secure the mount base.

Note: Screws are not included. Please obtain the appropriate screws for your type of ceiling.

- 2 Secure the ceiling rod using the appropriate type of four-cylinder screws.

- 3 Use the appropriate number of screws for the projector size to attach the projector to the ceiling mount bracket.

Note: It is recommended that you keep a reasonable space between the bracket and the projector to allow for proper heat distribution. Use two washers for extra support, if deemed necessary.

- 4 Attach the ceiling bracket to the ceiling rod.

5 Adjust the angle and positioning as necessary.

Note: The appropriate type of screw and washer for each model is listed in the table below. 4 mm diameter screws are enclosed in the screw pack.

Screw Type B		Washer Type	
Diameter (mm)	Length (mm)	Large	Small
4	25	V	V

Regulations and safety notices

FCC notice

This device has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

Notice: Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.

Notice: Peripheral devices

Only peripherals (input/output devices, terminals, printers, etc.) certified to comply with the Class B limits may be attached to this equipment. Operation with non-certified peripherals is likely to result in interference to radio and TV reception.

Caution

Changes or modifications not expressly approved by the manufacturer could void the user's authority, which is granted by the Federal Communications Commission, to operate this device.

Operation conditions

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Notice: Canadian users

This Class B digital apparatus complies with Canadian ICES-003.

Remarque à l'intention des utilisateurs canadiens

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Declaration of Conformity for EU countries

Acer hereby declares that this projector series is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Compliant with Russian regulatory certification

Radio device regulatory notice

Note: The regulatory information below is for models with wireless LAN and/or Bluetooth only.

General

This product complies with the radio frequency and safety standards of any country or region in which it has been approved for wireless use. Depending on configurations, this product may or may not contain wireless radio devices (such as wireless LAN and/or Bluetooth modules).

Canada — Low-power license-exempt radio communication devices (RSS-210)

- a Common information
Operation is subject to the following two conditions:
 - 1. This device may not cause interference, and
 - 2. This device must accept any interference, including interference that may cause undesired operation of the device.
- b Operation in 2.4 GHz band
To prevent radio interference to the licensed service, this device is intended to be operated indoors and installation outdoors is subject to licensing.

List of applicable countries

This device must be used in strict accordance with the regulations and constraints in the country of use. For further information, please contact the local office in the country of use. Please see <http://ec.europa.eu/enterprise/rte/implem.htm> for the latest country list.
