# EZYROLLER 2017

## ADDICTED TO THE MOTION!

Sweeping across playgrounds and sidewalks of the world is a riding machine that fearlessly lets you curve your way. It's called the **EzyRoller**. Smooth riding artistry that's so much carefree fun, it leaves pretenders in its wake and has any kid from 4 to 40 hooked.

What makes **EzyRoller** such a blast? It's an addiction to the motion. Like a fish through water or a snake on land, **Ezyroller** works off an instinctive reptilian movement in all of us. Sitting low to the ground with hands free, the body shouts orders and the legs and feet answer, pushing back and forth against a foot bar.

It's also clever, with an extendable bar, so it grows with its owner. And the assembly is so easy – 5 minutes until you're up and at it. Alongside the original, there's now a range of **EzyRollers** to suit little tykes, the **Mini**, and for teens and adults, the **Pro**. And for the daredevil in all of us, there's the **Drifter**.
