

HELIUM

A great choice for backpacking, trekking or a long cycle tour; when space is at a premium and weight an important concern the reduced pack size and weight of a Helium bag makes it the perfect companion for your trip

A multitude of proven design features including our 5 baffle Bulls-Eye foot piece combined with lighter shell and lining fabrics provides consistent all-round performance with a lower weight and smaller pack-size.

- 90/10 Pure Down with a minimum fill power of 675
- He30.rs shell fabric is exceptionally lightweight and highly breathable
- Supersoft lining – our softest and lightest next-to-skin layer
- Supplied with lightweight stuff sack and large mesh storage sack
- Box wall baffles hold down securely in place without cold spots
- Anatomical hood prevents cold spots around head
- 3-Dimensional neck collar helps to prevent cold spots and heat loss around the neck
- Bulls-Eye (5 baffle) foot piece and Shark's Toe design to maximise loft
- ¾ length side zip with anti-snap baffle

Helium fabrics are designed exclusively for Mountain Equipment. Using our years of design and practical experience and working along side some of the world's finest fabric houses we have developed the Helium range of fabrics. Helium fabrics offer the lightest weights and highest levels of breathability around so you can be sure that you are getting the maximum performance from your product.

The down used in these bags is ethically sourced 90% Pure Down which is carefully blended to ensure quality. Each batch is individually tested at point of filling the bags to ensure a minimum fill power of 675 cubic inches.
