beard styler and shaver

Pro

QS6160

Express your style

Trim, style & shave - with one single product

Create the exact look you want with Styleshaver. With just a flip of the wrist, this dual-ended electric beard styler and shaver has everything you need to create a perfectly styled beard, 3-day beard, or a clean shave, even on tough beards

Trim + style + shave

- Beard trimmer with 12 length settings from 0.5mm to 10mm
- Reversible trimmer: 32mm and 15mm sides for perfect details
- Dual shaver with trimmer shaves even the toughest beards
- Detail comb for precision, and beard comb for control

Easy to use

- 50 minutes cordless power after 1 hour quick charge.
- 100% waterproof for easy cleaning
- Travel lock prevents the product from turning on by accident
- Battery light shows the battery status
- 2-year guarantee, worldwide voltage, no oil needed
- Power light clearly shows which end is running
- Charging stand and pouch: stay charged and ready to go

Skin friendly performance

- Skin-friendly, high-performance trimmer blades

PHILIPS

sense and simplicity

Highlights

Beard and stubble trimmer

A full size (32mm) beard and stubble trimmer with 12 adjustable length settings from 0.5mm to 10mm makes it easy to get exactly the length you want. Turn the wheel to lock-in your perfect length setting. The durable metal trimmer with skin-friendly rounded edges guarantees a precise and even trim.

Reversible trimmer

Take off the adjustable length comb, and there's a reversible precision trimmer underneath. One side is a 32mm high-performance trimmer. Turn it around, and there is a 15mm wide precision trimmer – perfect for getting into small spaces, like under your nose or around your mouth. It's designed to cut very close while still protecting your skin, and it's small size and angled design make it easy to see what you are doing for fine lines and details.

Dual foil shaver with trimmer

The dual foil shaver makes it easy to clean up stubble around your beard, even on your neck.

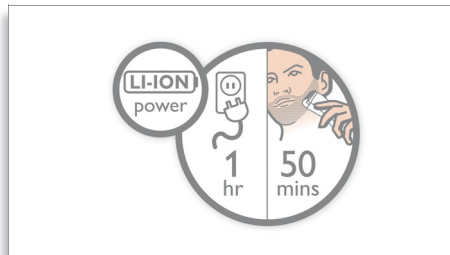

The mid trimmer catches longer, tougher hairs and the 2 floating foils shave everything else perfectly smooth.

Detail and beard combs

The detail comb gives you more precision as you trim. Use it instead of the beard comb to get into tight spots, or to round off the edges of your beard. The beard comb gives you more control for an even trim.

1 hour charge

The powerful lithium ion battery lasts for 50 minutes after a 1 hour charge. A quick 10 minute charge gives you 10 minutes of grooming time, so it's always ready when you are.

100% waterproof

Shave or trim your beard where you want to, wet or dry. When you're done, just rinse it off under the tap.

Travel lock

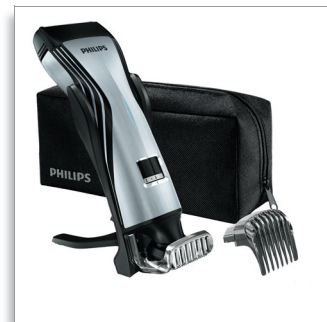

Press any button for 3 seconds to activate the travel lock, so the product doesn't get turned on accidentally. A red lock symbol between the buttons shows when the travel lock is on.

Power light

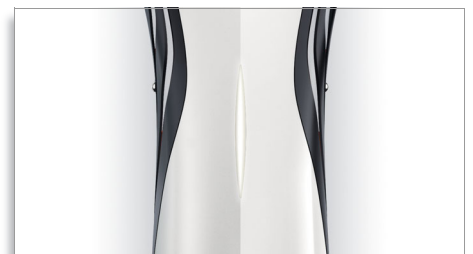

The trimmer button lights up when the trimmer is on, and the shaver button lights up when the shaver is on, so you always know which end is running.

Charging stand and pouch

The foldable charging stand is designed to fit into even the smallest spaces, so you can charge it wherever you want and easily take it with you when you travel. The pouch protects your shaver during travel and gives you a convenient place to store it when not in use.

Battery light

Battery light glows light blue when full and blinks orange when 10 minutes remain.
