ART

Excites your living
www.tenzo.se

DISPLAY YOUR TREASURES

Art is one of a kind when it comes to stability. Few other shelves can stand on its own like Art can. It doesn't have any cross braces to disrupt the clean look but it is yet completely steady. It is beautiful in its own appearance and it is suitable as a room divider. It is also a good display location for your treasures.

DESIGN BY
tenzo design studio

Swedish design

Simple, aesthetic and functional are the guiding principles that have shaped the expression of Northern Europe design - light and airy spaces.

Stability

Most other shelves on the market have cross braces to be steady. But Art is a unique example when it comes to stability. It stands stable without any other support than its solid oak edges and can be placed anywhere you like.

Solid oak

The technical knowledge and sense of design from tenzo is what made the construction of Art possible. It pursued the development all the way from idea to production. That's why we could preserve the clean look by not using any cross braces and still make it solid.

Design

Art is designed by tenzo design studio. The team always works closely with the production to make sure that each piece is designed to fully benefit the capacity of our production facility in Sweden. No middle hands or compromises that change the design from its original idea.

tenzo®

BESS

Excites your living
www.tenzo.se

SCANDINAVIAN RETRO

Bess is a collection of modern Scandinavian design intertwined with the classic appearance of the 50's. It is a collection of designed simplicity, where the details are made with a "less is more" mind-set. The legs are fixed in a steady solid oak frame that keeps the furniture from slouching even if you put weight on it. The solid oak is recurring in the handles which is a small element that defines the typical appearance of Bess.

Bess is the perfect furniture collection for the home that wants to add something with a genuine style and character but don't want the looks of one piece to take over the room. Add something out of the ordinary, exciting simplicity in its purest form.

Simplicity

The simple lines of character are what defines Bess. The legs are elegant and they are a perfect example of design from northern Europe. Bess proves that furniture doesn't need to be complicated to be beautiful.

Attention to details

The details of Bess are small and clean but it is something out of the ordinary. Balance is created when the oak from the leg is recurring in the handles. The handle is also what sets the tone of Scandinavian design.

Made in Sweden

The technical knowledge and sense of design is what makes the production of Bess precise and accurate. Tenzo have high quality standards and quality is always inspected before the furniture is shipped.

Design by: Rutger Andersson & Jurij Rahimkulov

Rutger Andersson is an excellent designer of "less is more" and he doesn't embellish his creations with unnecessary decorations. Jurij Rahimkulov has a past as an interior designer in Moscow. The combination of aesthetic and architecture makes them a great designer duo.

...designed by you
C-bar by **tenzo**

DESIGN

C-bar is a collection of seats, legs and table tops with a large variety of possible combinations. Every seat and table top fits perfectly with every leg, the design is yours to make. The chairs and tables are a welcome addition to any dining room, living room, or any other room in your home where classy design and comfort fits in. The chairs and tables have a sturdy construction and there is a look for every taste. C-bar is developed by tenzo in collaboration with Swedish designers.

QUALITY

Tenzo always strives to give our customers high quality furniture. Tests for strength and stability according to EN 12520, EN1022 have been made for C-bar dining chairs.

tenzo®

COBRA®

Excites your living
www.tenzo.se

RENEWED RETRO

Cobra® combines mid-century simplicity with traditional and refined innovation. It is different in its appeal compared to other retro products in the tenzo range. This stylish collection of furniture will complement your home perfectly - whether you choose a timid, neutral colour to blend in or a bold one to create a highlight.

The source of inspiration to Cobra® is the same as for the tenzo bestseller Malibu® - cars in the timeless style of 1950's and 60's modernism. More specifically the inspiration for Cobra® comes from the sports car AC Cobra, which is seen in the handle and the characteristic logo that decorates the front. Together they clearly recreate the style and connect to the retro design. Cobra® is a high-quality collection that will last for many years to come, and it is made in Sweden.

DESIGN BY
Rutger Andersson

Details

The handle in chrome is specifically designed for Cobra®. The characteristic logo that decorates the front and the significant details connect to and recreate the retro style of the 60's.

Made in Sweden

Cobra® is manufactured in Sweden. The technical knowledge in paint and sense of design is what makes the production of Cobra® precise and accurate.

Timeless design

Cobra® is yet another successful composition by Rutger Andersson. His source of inspiration comes from the modernism of the 1950's and 60's, a timeless source of inspiration that will never go out of style.

COBRA® *Soft*

o o o o

RENEWED RETRO

Cobra soft has the same appearance as the original Cobra. The inspiration comes from cars in the timeless style of 1950's and 60's modernism. More specifically the inspiration for Cobra® comes from the sports car AC Cobra, which is seen in the handle and the characteristic logo that decorates the front.

Unlike Cobra, Cobra soft is equipped with dampers integrated in the hinges that catches the door and close it slowly, silently and softly. The products of Cobra are subject of high quality.

CROSS

o o o o

tenzo®

CROSS

Excites your living
www.tenzo.se

THE TIMELESS CLASSIC

Cross is a subject of timeless design that combines function and aesthetics. With a mixture of soft stained colours and oiled natural materials it is appealing to anyone who appreciates Scandinavian design. The legs in solid oak are delicately designed with the stability in mind, a strong construction that will age beautifully. The handles are smoothly curved without any sharp edges, which creates a soft design together with the grey stained surface. To have a stained surface instead of completely covering lacquer allows the wood structure to appear through the paint. The wood structure reoccurs to the solid oak legs which makes the product consistent and harmonized.

The well worked edges and details are what make Cross a timeless classic. It is a piece of furniture that has solid materials that will last for a long time, and an aesthetic attitude to catch the eye.

DESIGN BY
Says Who

Stained veneer

The collection of Cross has a finish of grey stained oak veneer. To have a stained surface instead of completely covering lacquer allows the wood structure to appear through the paint which makes the surface vivid and also connects to the natural materials.

Details

The details of Cross are designed with accuracy and precision. The handles are made of soft curves that blend in nicely with the doors and drawers. The solid oak legs are designed to ensure both style and stability.

Timeless design

Cross is made with a mixture of stained colours and oiled, solid natural materials - a combination that follows the Scandinavian tradition of elegant minimalism.

EXCLUSIVE DINING

D-bar is a “mix and match” story. There is a possibility for a new table for every mood or occasion, just change the top! You can design your own table by switching between the resistant laminate top, the everyday oak top or the beautiful “for-special-occasions” glass/marble top. Extend the life of your dining table. By changing the top you’ll get a new and fresh look that gives the room a whole new expression. The leg, is made of solid, oiled oak and will last for many years. The different tops are made of different material but each one of them of a quality that is approved by tenzo.

tenzo®

DOT

Excites your living
www.tenzo.se

DESIGN SIMPLICITY

Dot is a collection of design simplicity - clean, Scandinavian design. The details are carefully crafted to catch your eye and create an exciting piece of furniture.

The designer has polished and refined Dot many times to find the perfect look. It took more than two years to finish his work. The result is exquisite, and designed into every last detail. Nothing has been left to chance.

Tapered, turned legs and push-to-open function add to the absolute design. The quality is ensured by tenzo's high production standards and the furniture will last for many years to come. Dot is the perfect mix of high quality, great design and functional storage.

DESIGN BY
Måns Broman

Made in Sweden

The technical knowledge and sense of design from tenzo pursued the development all the way from idea to production. The creation process of Dot is genuine and precise. Tenzo has got high quality standards and the furniture is always inspected before it is shipped.

Details

The dots instead of handles are nicely shaped into the MDF fronts and create a clean overall look. Solid oak legs in combination with oak veneer tops form an attractive frame which highlights the design of the furniture even more.

Push to open

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

FRESH

•••••

tenzo®

FRESH

Excites your living
www.tenzo.se

THE RURAL DESIGN

The inspiration to the Fresh product line comes from the traditions of Swedish design that is clean and simple. Though the products may be simple, the appearance that is special for Fresh is completed when the simplicity is combined with the rural handles. The oak details together with the otherwise simple furniture creates the contrast that is characteristic for Fresh and goes well with the Swedish design heritage.

Fresh is a suitable fit for the room that needs a highlight with an expression of minimalist Scandinavian design. It has a genuine style of character but is still subtle in its appearance. A lot of integrity with minimalism in mind, a guiding principle of northern design.

DESIGN BY
tenzo design studio

Swedish design

Fresh is a subject of typical Swedish design. The warm colours that is mixed with oak details creates a pleasant feeling. It goes well in any room with its subtle and adaptable appearance.

**SOLID
OAK**

Solid oak

The oak details are made of solid oak. It is a firm material that makes Fresh a strong construction. Oak is also a material that ages with dignity.

Attention to details

The plain surface is decorated by a round handle in oak, that recurs in the legs and frames the product in a nice way. The blend creates a characteristic expression that can only be described as a subject of true Swedish rural design.

tenzo®

GRAIN

Excites your living
www.tenzo.se

EXCEPTIONAL ELEGANCE

The Grain product line is something special. It has a fresh approach to the casual “countryside style” and its appeal will definitely create a tranquil environment. The design is built on round materials with no sharp edges and follows the tradition of Scandinavian design – absolute style with minimum fuss. It’s a classic that fits as well in the light and airy spaces as the small and narrow apartment, a certain way to add aesthetics to your home.

Part of the essential design is the surface. The products are developed in natural materials and you can see the structure through the stained colour finish. It is very simple, yet aesthetic. It gives a genuine natural impression and it has a sturdy construction that is durable and long-lasting.

This classy collection is sure to enrich your interior design and create a welcoming atmosphere. It is the perfect piece of furniture to add understated elegance to your home.

DESIGN BY
Monika Mulder

Quality

The products of Grain are subject of a high quality as well as strong construction. The hinges have integrated dampers that catch the door and close it slowly, silently and softly.

Stained veneer

Part of the essential design is the surface. In Grain you can see the structure through the stained colour finish. It is very simple, yet aesthetic and gives a genuine natural expression.

Design

Monika Mulder, the designer of Grain, cares a lot for the sculptural aspect of design. Her main interest is to develop relevant solutions for real needs, and to give grace and beauty to everyday products.

MALIBU®

o o o o

tenzo®

MALIBU®

Excites your living
www.tenzo.se

MALIBU®

THE ORIGINAL SINCE 1998

The rebel - In the 50's and 60's many young people broke free from the traditional social norms, wanting to release from their parents' generation. They didn't want to follow the old standards, but aimed to express their individuality through music, fashion and cars. New subcultures emerged such as Rock n' Roll and Surfing which let the young people enjoy their freedom and show their personality. This young generation wanted to break free from the society they were born in, they wanted to be different, they wanted to show who they were. This is why Malibu is different and expresses your individuality.

Malibu is young, rebellious and colourful!

Malibu is inspired by the styles and ideas of the youngsters from the 50's and 60's. Rutger Andersson created a colourful retro design, bringing the feeling of that generation back to the present. The contradiction of modernity and retro design makes the furniture timeless but unique.

EXPRESS YOUR INDIVIDUALITY

High quality design.
Made in Sweden

Malibu® is associated with longevity - it has been a tenzo bestseller since 1998 and is created by Swedish designer Rutger Andersson. He prefers to be inspired by lifestyle rather than design exhibitions and Malibu® is no exception.

VERSATILE DINING

Endless possibilities and a style for every home. M-bar gives you the opportunity to design your own dining table. Choose the leg and table top you like and design the perfect table for your home. The dining table is available in two sizes and in different shapes, this to fit nicely in both the spacious and small home.

The legs of M-bar are inspired of our bestselling chairs in C-bar. Combine these two product groups and get the perfect match. Legs made of Oak, bentwood or metal in three different colours together with table tops made of oak veneer, lacquered MDF or Glass, make M-bar a great dining table with your own design.

PATCH

Excites your living
www.tenzo.se

SIMPLICITY & ELEGANCE

The product may look simple at first glance, but the closer you look you'll see that behind both design and production lies hours of care. Each base is made in solid oak which allows the legs to have its characteristic form, a detail that expresses northern design and harmony. The rest of the product is lacquered in high quality white paint which makes stains easy to wipe off with a damp cloth.

All doors and drawers are equipped with a push-to-open feature. The clean lines appear even more clearly when no handles are needed. The appearance of Patch is a delight to the eye; especially for those who appreciate symmetry. Yet the symmetry is not just plain and ordinary - the legs are made with a graphic twist that highlights the unique cut that is characteristic for Patch.

Thomas Eklundh

DESIGN BY
Thomas Eklundh

It's in the details

The legs of Patch are something out of the ordinary. They are made in solid oiled oak and have a unique cut that is a characterizing design detail. Every line and chamfer is through and truly makes Patch a work of art.

Push to open

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

Added value

On all Patch items it is possible to choose a top in oak instead of white lacquer. That makes the oak from the leg recurring in the top plate. This way the oak creates an artistic frame which adds another highlight and brings sophisticated symmetry to the product.

MINIMALISTIC STYLE

Profil is a classic design with a clean look - no clutter, just beauty. The fronts in oak veneer add a visual interest to the otherwise white collection. The white lacquered surface that meets the oak creates a refreshed, modern look that will complement contemporary interior spaces and can be used in a living room or dining space as an attractive storage option.

Profil is a suitable fit for the room that needs a highlight with an expression of minimalistic Scandinavian design. It has a genuine style of character but is still subtle in its appearance. A lot of integrity with minimalism in mind, a guiding principle of northern design.

"When you walk into a room and just feel that something is perfect... That's the feeling of the Profil collection from tenzo."

Made in Sweden

The fronts are made in chip-board covered with either white lacquer or oak veneer made in Sweden. To use veneer is a good way to get a massive oak feeling, retain high quality and structure without using solid oak.

Details

The corners of Profil are carefully crafted to give the products a fashionable look. The doors are delicately bordered by the edges that are pushed out over the doors to give a handsome depth to the product.

Push to open

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

Design by: Tenzo product development team

The team of tenzo design studio always works closely together with the production to make sure that each piece is designed to fully benefit the skills and capacity of our production facility in Sweden. That means no middle hands or compromises that change the design from its original idea.

YAY CABINETS

Yay is a petite storage collection perfectly made for small spaces. Like a piece of jewellery Yay refines your home and brings good storage in a fresh way.

The tall legs made of stainless steel gives the cabinet an elegant silhouette. The legs are also perfectly matched with the handles that are made of brushed nickel.

Swedish design

Yay is a Swedish design made by tenzo design studio. Behind the clean appearance there is a lot of love behind Yay. The soft colours give the petite cabinets a sense of harmony and make it an adorable piece of furniture.

Attention to details

The legs and handles are carefully chosen to refine Yay. The tall legs made of stainless steel make the cabinet unique. The circle formed handles is both a delight to the eye and perfectly matched with the legs. The drawers are covered with maple melamine.

Designed by tenzo design studio

This product is designed by the product development team at tenzo. The team always work closely together with the production to make sure that each piece is designed to fully benefit the skills and capacity of our production facility in Sweden.
